UNFINISHED BUSINESS

Passage for Second Reading.

The following presented by the Clerk was taken up:

Amending Ordinance No. 9359 (Series of 1939), approving the Rede-

velopment Plan for the Diamond Heights Approved Redevelopment Project Area B-1, by adding additional density classifications to permit construction of rental row apartments; by changing time limitation within which alternate uses under said Redevelopment Plan shall become effective; and by reclassifying various land use designations.

File No. 70-63-3, Ordinance No.

Supervisor Morrison, seconded by Supervisor Tinney, moved passage for second reading.

The Chair explained that a full-scale public hearing on the proposal had been held on May 27, 1963. Today's hearing would not be opened to public discussion unless all Board members present agreed to such procedure. Further, the subject legislation is an amendment of what had originally been authorized, and did not initiate middle-income housing in Diamond Heights but provided for an alteration in the number and type of units to be built there.

Privilege of the Floor.

Supervisor Morrison, seconded by Supervisor Ertola, moved that proponents and opponents of this measure be permitted a 20-minute period in which to present their point of view.

No objection and motion *carried*.

Mr. M. Justin Herman, Executive Director Redevelopment Agency, set forth the background of the subject legislation, pointing out that a precedent had been set for making the alterations requested in Diamond Heights, both in the Golden Gateway and Western Addition Projects. He stated that today's presentation is the result of the Board's request on June 10, 1963, that a model of Diamond Heights be prepared to show where increased density is intended and how this would relate to the other housing.

Supervisors Boas and McCarthy asked for answers to complaints which had been received about the increased density and about the small size of the rooms in the units. The Agency representatives replied that the minimum room size has been established by the Building Code and the FHA; that all will be larger than the minimum prescribed; and the density will be less than that permitted in existing R-3 zones or in the proposed changed R-3 and R-3.5 zones. They described the planned units as approximately the same size as those in the St. Francis Square Project in the Western Addition.

Supervisor Tamaras raised the question of complaints concerning the narrowness of the streets; the difficulty in parking; and the possible problem of getting Fire Department equipment into and through the area. Mr. Herman replied that the area was not designed for high speed thoroughfares; that there will be considerable street area for parking, and each unit has its own parking area. He indicated that he was sure when the streets were designed the Fire Department was consulted. However, at Supervisor Tamaras' request a representative of the Fire Department was requested to come to the meeting and clarify this point. Accordingly, Chief Lindecker of the Fire Department appeared later in the afternoon and stated that

it is the Department's understanding that the major arteries are 40 feet in width and the primary arteries 26 feet. Therefore, if parking were properly done the Fire Department would have adequate area in which to move.

The privilege of the floor was granted to the following:

His communication reads as follows:

"January 20, 1964

"To the Board of Supervisors of the City and County of San Francisco; and

"To the San Francisco Redevelopment Agency:

"Please take notice that I am a member of the Board of Directors of Mission Neighborhood Centers, Inc.; and that I have no financial interest, direct or indirect in the Mission Neighborhood Centers, Inc., proposed Diamond Heights moderate-priced housing development.

JOSEPH E. TINNEY,
Supervisor

City and County of San Francisco."

Motion defeated by the following vote:

Ayes: Supervisors Ertola, Tamaras—2.

Noes: Supervisors Blake, Boas, Casey, Ferdon, McCarthy, Morrison, Moscone, Tinney—8.

Absent: Supervisor McMahon—1.

Explanation of Vote.

President Ferdon stated he is strongly in favor of moderate-priced housing, but disapproves of the manner in which this matter was

presented to the Board of Supervisors; he feels hearings should have been held by the Board on the proposal and that it should have been thoroughly reviewed by the Supervisors instead of being presented as a completely planned project for approval.

Supervisor Tamaras stated he feels this type of development is the only way in which people of moderate income can own property in San Francisco; that the Board should not discriminate against people in this group, and it is essential to maintaining the vitality of the city that they be retained as residents. Further, that the project is well conceived and planned and prior experience has shown it can be undertaken successfully.

Supervisor Morrison stated he feels the Board must be mindful of the housing needs of all the citizenry of San Francisco, and this project will serve the needs of people in the income group represented by half the population. Further, the City Planning Department has told them this is the best planned unit development to come before them.

Supervisor Blake stated he feels the need for housing for middle-income people is critical and more consideration to providing housing for this group should be given in rebuilding every redevelopment area in San Francisco.

Passed for second reading by the following vote:

Ayes: Supervisors Blake, Boas, Casey, McCarthy, Morrison, Moscone, Tamaras, Tinney—8.

Noes: Supervisors Ertola, Ferdon—2.

Absent: Supervisor McMahon—1.

Diamond Heights Development.

The Chair announced that Mr. Herman requested the privilege of the floor to explain another matter which will be before the Board shortly.

No objection and request *granted*.

Mr. Herman stated that he wished to make reference to the following matter while the Diamond Heights model was still before the Board: Within the next five or six months the Redevelopment Agency expects to come forward with a plan for erection of several high rise towers on Gold Mine Hill without substantial increase in density at this location. He wished the Board members to observe the relative heights of Red Rock, Gold Mine and Fairmount Hills, as they appear in the model, so they may bear these in mind when the new proposal is presented.

Passage for Second Reading.**Taken Up Out of Order.**

There being no objection, on motion of Supervisor Morrison, seconded by Supervisor Boas, the following recommendation of Public Buildings, Lands and City Planning Committee, appearing on the Calendar under New Business, was taken up out of order:

Amending the City Planning Code by amending, renumbering, adding and deleting certain sections, to prescribe rules of measurement for height and bulk of buildings in areas not having height limits, with defined exceptions; and to establish special height districts varying from 40 to 105 feet in the northeastern area of San Francisco.

File No. 396-63, Ordinance No.

Supervisor Morrison stated that the subject legislation will add a number of amendments to the City Planning Code regulating height of buildings along the northern waterfront, and will consolidate height limitation legislation in the City Planning Code by transferring to it from the Building Code those regulations which are now in that code. He described the new height limitation districts which are to be added and explained that the rationale of the Planning Department in presenting this proposal is to preserve the contour of the land—valleys to remain valleys; hills to be accented by high rise buildings at their summits; medium density buildings to be permitted on the slopes; and low density on the flat land.

Recording of Proceedings.

The Chairman announced that permission had been granted through the Chair for a tape recording of these proceedings to be made, assuming there would be no objection by the Board members.

No objection and permission *confirmed*.

Supervisor Boas added his endorsement of the proposed legislation, and stated he felt the concern of those who opposed it was one of personal economics, but that passage of the measure would be to the advantage of the entire community.

Supervisor Tinney reaffirmed his support of the measure, stating that it is essential to the retention of the beauty of San Francisco.

Supervisor Blake expressed his intention to support the measure, but called on its proponents to assume some responsibility for the development of high rise apartments on the hill tops to help provide increased tax revenue for the City.

Mayor Shelley Present.

The Chair announced that Mayor John F. Shelley was present at

MONDAY, FEBRUARY 3, 1964

today's hearing on the height limitation legislation in answer to the Board's standing invitation to him to be present when important matters are being considered.

Supervisor Tamaras indicated his support of the subject legislation, but expressed his belief that the Board should not be satisfied with this solution, but should seek a plan which would give San Francisco a more enduring type of building construction than is possible with the 40-foot height limitation. Accordingly, he indicated that he would join with some other Board members in submitting additional proposals for study.

Mr. James R. McCarthy, Director of Planning, presented an explanation of what is contemplated, and delineated the areas affected by the subject ordinance. To Supervisor Casey's question as to whether or not boundaries are run down streets or in the middle of blocks, he answered that the boundaries are co-terminus with zoning boundaries and property lines.

There being no other questions, the Chair announced that communications from the legal counsel for the proponents and opponents of subject legislation would be read and made a part of the official record, as follows:

HELLER, EHRMAN, WHITE & McAULIFFE

14 Montgomery Street - San Francisco 4 - YUkon 1-5000
January 31, 1964

To the Honorable
The Board of Supervisors

We write in support of your Planning Committee's unanimous recommendation in favor of the adoption of the 40' height limitation for the northern water front area. This proposal, as you know, was unanimously recommended by both the City Planning Commission and your Planning Committee after more than a year's intensive study.

In view of the unanimous support this proposal has received from all of the responsible agencies, including your Committee, which have really studied it, we do not propose to infringe too much, at too great length, upon your time with a lengthy history or detailed statement of all of the arguments in favor of this proposal. Nevertheless, we feel it both proper and our duty to urge, as strongly as possible, your favorable vote upon this proposal for it is quite simply a measure that will preserve for future generations one of the priceless assets of San Francisco, the whole relationship of the city to the Bay.

The 40' height limitation in the northern water front area has been under active consideration by the City Planning Commission and the Board of Supervisors since 1960. In 1962 the Board unanimously adopted an ordinance imposing the 40' height limitation on a large portion of the area now under consideration, after listening to all of the arguments which are being made in identical form against the proposal at this time. At the same time the Board directed the Planning Commission to study the whole matter for a

year and report its findings. During this period, ample opportunity was available for anyone who wished to make recommendations or present studies, documents or other material to the Planning Commission to aid it in its study. The proposal that will be before the Board on Monday represents the unanimous conclusion of the City Planning Commission and its staff, and it constitutes a complete confirmation of the arguments of those who urged the 40' height limitation for it is a proposal to add this height limitation to a far greater area than that originally proposed by the first sponsors of the legislation.

It should be clearly understood that the 40' height limitation is not a proposal supported by a small group of home owners who wish to protect their views. It is, on the contrary, a measure urged as strongly as possible by some 22 improvement clubs, neighborhood associations and civic organizations whose membership is drawn from all over San Francisco and indeed parts of the Bay Area. It is a proposal that is supported by more than 8,000 signatures gathered entirely by volunteer workers. It is a proposal that is designed, as we said, to preserve the whole relationship of the city and the Bay and, particularly, the views enjoyed by the public from publicly-owned lands, such as Coit Tower and other city-owned recreational spaces. Much more than that, it is a proposal designed to prevent serious overcrowding, heavy additional traffic, police and fire protection problems, all of which go with the unplanned and uncontrolled building of high rise apartments in areas where the City's Master Plan specifically declares they should not be built. The Master Plan has for years provided that the height of buildings should generally follow the contour of the land, and that low rise buildings should be built on the low lands, such as the northern water front, and high rise at the tops of the hills so that the loss of views, etc., will be minimized. The 40' height limitation is in full accord with this policy.

Further, as pointed out by the Planning Commission Report, the proposal is designed to protect publicly-owned recreational areas from a substantial loss of sunlight.

The 40' height limitation is not a novel or revolutionary proposal; it is in effect in 70% of the residential areas of the city, either as part of zoning restrictions or as a specific height limitation. In these areas none of the dire effects predicted by opponents of the 40' height limitation have ever occurred. Property values have risen spectacularly in these areas, and it is apparent that the 40' height limitation in these areas has neither caused nor prevented effective design there. There have been brilliant and imaginative architectural designs proposed and carried out in these areas and there also have been many houses and apartments built without benefit of such architectural excellence. This is true in all parts of San Francisco, and it is apparent that the 40' height limitation neither produces nor prevents great architecture nor, as is amply demonstrated by the plans of the private Roth Syndicate for developing the old Ghirardelli property, nor does the 40' height limitation prevent the investment of private capital on a major scale.

Essentially the arguments of the opponents boil down to the fact that they are not satisfied with the intensive three-year studies that have been made because these studies did not reach the solution they wished. Now they ask for more studies and more delays so that a more sophisticated "solution" can be achieved. In this connection, "sophisticated" simply means a solution desired by the opponents.

Their arguments are threadbare from over use. They are the same arguments presented every time a proposal has been considered, and they will undoubtedly continue to be made unless these opponents should finally secure the adoption of a plan satisfactory to them. They disclaim a desire to have a Chinese wall, but the only solution they have proposed, permitting unlimited high rise construction under the guise of "planned unit developments" every few blocks, would produce a picket fence result equally offensive to the objective of preserving the great asset of San Francisco's beauty.

All of their arguments boil down to the fact that they do not want a height limitation, and that, in fact, they do not know what they do want aside from more delay, which they think they would secure if there were another long, expensive and unnecessary study at the conclusion of which the same basic problems and the same basic solutions would still have to be made.

Some of the opponents have urged that a 40' height limitation is too restrictive, but that 47-1/2 feet will solve all problems. It is advanced primarily on the theory that it would permit a 4-story building and require the use of better building materials because of the provisions of the building code. In this connection it must be remembered that the concrete reinforced steel construction envisioned by those who favor the 47-1/2' limit is a far more expensive type of construction than wood frame, and not at all guaranteed to produce as handsome a result, and that normally, this more expensive construction is used in building far in excess of 47-1/2'. In short, it is highly doubtful if many would utilize the extra footage once they realized they would be required to use **this far more** expensive form of construction.

Furthermore, 47-1/2', being subject to the usual 10' exception for elevator, air conditioning and other purpose on top of the building really means 57-1/2'.

Also, with some 70% of the city's residential area now under a 40' limitation, enactment of the 47-1/2' limit in the northern water front area, as is proposed by some, would inevitably result in pressure to increase all of the rest of the city's 40' height limit to 47-1/2'—a pressure that would be both hard to resist and totally disruptive of neighborhood patterns throughout San Francisco.

If the opponents of this proposal, after more than three years of arguing against the 40' height limitation proposal—a proposal which has been recommended by every official group that has really studied the question—have not been able to agree upon, or even been able to develop, any serious alternative to the 40' height limitation, further delays would hardly seem likely to produce a better result, and they inevitably would increase the uncertainty felt by every property owner while all of these studies are progressing, an uncertainty which will indeed prevent the proper and profitable development of property that is now fully possible within the 40' height limitation proposal.

For all of these reasons, we respectfully urge that you support the Planning Commission's and your Planning Committee's unanimous recommendations and adopt the 40' height limitation proposal. If in the future the opponents fare better than in the past three and one-

half years and are able to produce a better solution, there is nothing to prevent any future Board from studying, perhaps even adopting, that better solution.

Sincerely yours,
Caspar W. Weinberger

ATTORNEYS AT LAW
400 MONTGOMERY STREET - SAN FRANCISCO, CALIFORNIA
January 29, 1964

The Honorable Board of Supervisors
City Hall
San Francisco, California

Dear Sirs:

The Citizen's Progress Committee is composed of the San Francisco Real Estate Board, the Business and Property Owners Association, the Associated General Contractors, the Building Owners and Managers Association; and the San Francisco Building and Construction Trades Council (AFL-CIO).

The Committee has consistently opposed the continuation of a situation which will permit irresponsible developers to construct a "Chinese Wall" in the North Waterfront Area. By the same token, it has opposed with equal firmness the unimaginative leveling of this unique area by a stultifying blanket height limitation.

The Planning Commission study on which the ordinance before your Board is based is misleading and inadequate. It assumes the continuation of the existing zoning classifications in this area and then postulates its findings on the worst set of circumstances that can occur under these classifications. There is no evidence in the report of any sincere effort to develop new and more refined classifications for the North Waterfront.

The report demonstrates that the sole justification for the proposed height limitation is the preservation of each of the existing views from the hills.

On June 21, 1961, our Committee submitted to the Commission reports from the firm of Livingston & Blayney and from Sidney Williams, both eminent city planners, which set forth the steps necessary to make an adequate study of the problems of the North Waterfront. The Commission staff completely ignored this expert advice and employed the one method that was certain to avoid coming to grips with the basic problem. Both morning newspapers have given editorial support to the position that a proper study remains to be made.

The truth is, that no one except the Russian Hill Association and the City Planning Commission believes that a varied and an attractive development of the wonderful stretch of land lying alongside the Bay can be achieved with a blanket height limitation. Architects and planning groups are almost unanimous in condemning a permanent blanket limitation and in demanding a study to produce a better solution. Those with an eye for beauty say we have one Marina—that is enough.

The ordinance being considered by your Board requires the Plan-

ning Commission to impose a 40-foot limitation on property which qualifies under the Planning Code for "planned unit development" treatment. The planned unit development was conceived to permit the imaginative development of large parcels of land without the necessity of rigid adherence to the existing zoning classifications. The Planning Commission has, under the code, complete discretion to approve or disapprove any planned unit development on the merits of the particular proposal. For example, it could disapprove a project because it, in the view of the Commission, constituted an unreasonable interference with existing views. We submit that the best interests of the City will be served, if this portion of the ordinance is deleted and the Planning Commission is forced to rule on all planned unit developments, even though the arbitrary 40-foot height limitation is exceeded.

It is interesting to note that the proposed ordinance preserves to the State of California the right to use the planned unit development concept for the Port Authority property lying to the north and east of the property affected by this legislation. The Planning Commission report also implies that a redevelopment project should have the same advantage. Only private property owners are deprived of the privileges afforded by the planned unit development provisions.

The Citizens Progress Committee makes the following recommendations to the Board of Supervisors in this matter:

1.—We recommend the defeat of the legislation presently before you. It is universally recognized that a blanket height limitation is an old fashioned, crude solution for the problem of the North Waterfront. It will foster drab monotonous development in a part of San Francisco that could be made one of its most attractive districts. Despite the Madison Avenue "slickness" of the Planning Commission Report, there has been no concerted, sincere, well-financed effort to find the best—as opposed to the easiest—solution. The existing ordinances passed in 1962 guarantee that the status quo will be maintained until a better solution is found.

2.—In particular we urge the defeat of that portion of the proposed ordinance which applies the 40-foot limitation to the planned unit development. The best interests of San Francisco require that the Planning Commission examine every proposal for large scale development in light of the best interests of all of the people.

3.—Regardless of the action that this Board takes on the proposed ordinance, we respectfully urge that it adopt a statement of policy with reference to height limits in the North Waterfront containing the following points:

(a) a declaration that a blanket height limitation does not provide that optimum solution to the problems of the North Waterfront and that the best interests of all of the people will be served by the development of a more sophisticated, modern and flexible solution.

(b) a request that all interested civic and planning groups combine their efforts, on a voluntary basis, to define the criteria, methods, personnel (including the City's Planning staff) to be employed in order to make a proper study of the aesthetic, economic and general welfare aspects of this problem; and further that such

groups raise the funds to defer one-half of the cost of the study.

(c) a statement that if, after due consideration by this Board, the method, criteria and personnel for the study are sound and the cost thereof is reasonable, the City of San Francisco will contribute the remaining one-half of the cost of the study.

For the further information of the Board we are attaching hereto the following:

- 1—Copies of editorials relating to the Planning Commission study.
- 2—Copies of a statement made on KPIX on behalf of the Committee.
- 3—Excerpts from a statement prepared by our Committee, dated March 6, 1962, in connection with the ordinances adopted in 1962. Many of the statements set forth therein are equally applicable to the ordinances now under consideration.
- 4—Copies of the reports of Livingston & Blayney and Sidney Williams.

Respectfully Submitted

An ordinance fixing and determining schedules of compensation to be paid municipal officers and employees and non-certificated employees of the San Francisco Unified School District, whose offices and positions are allocated to classifications specified herein and compensations for which are subject to provisions of Section 151 and Section 151.1 of the Charter, establishing work schedules and conditions of employment, and method of payment for various work schedules; providing that the said schedules of compensation shall be effective beginning July 1, 1964.

File No. 270-63-2, Ordinance No.

**STATEMENT AND PROPOSED AMENDMENT BY SUPERVISOR
PETER TAMARAS, CHAIRMAN OF THE JUDICIARY COMMITTEE**

As submitted by the Civil Service Commission, the Salary and Wage Survey dated January 31, 1964, proposes salary increases for 986 classifications, which include 10,430 permanently established positions. The estimated annual cost of the increase is \$3,338,983, including retirement costs, to which must be added the cost of vacation and other benefits.

Proposed amendments to the compensation schedules and the administrative provisions of the Salary Standardization Ordinance are placed before you today by the Judiciary Committee, for reference to the Civil Service Commission. They include amendments offered by or on behalf of 567 classifications out of a total of 1,118 classifications, proposing increases beyond the salaries recommended by the Civil Service Commission.

On behalf of the Judiciary Committee and as recommendations thereof:

I offer as proposed amendments to said schedule of compensations all written requests for adjustment supported by necessary written data filed with this Board. I move that such data, tentatively considered by this Board as warranting such proposed amendments, be transmitted to the Civil Service Commission for review and analysis, and report thereon to this Board not later than February 26, 1964. At the same time, the Commission shall submit a report as to what other changes, and the cost thereof, such proposed amendments would require to maintain an equitable relationship with other rates in said schedule.

For the purpose of this motion, the highest salary rate or range requested for each particular classification in said data is hereby proposed as an amendment to said schedule of compensations. The Clerk of the Board is hereby authorized and directed to tabulate such requested rates or ranges of salary and transmit such tabulation to the Civil Service Commission together with such data.

Additionally, the Clerk shall transmit to the Civil Service Commission, for similar report and recommendation, such data as have been duly filed with the Board in support of requests for amendments to the administrative provisions of the Salary Standardization Ordinance.

I further move that consideration of the proposed ordinance be continued until March 2, 1964, and that the Judiciary Committee in the interim continue to consider proposed amendments to the ordinance, for consideration by the Board on March 2, 1964.

Motion seconded by Supervisor Ertola, and *carried* by the following vote:

Ayes: Supervisors Blake, Ertola, Ferdon, McCarthy, Morrison, Tamaras, Tinney—7.

Absent: Supervisors Boas, Casey, McMahon, Moscone—4.

Request Granted.

Supervisor Tamaras and Supervisor Morrison requested that a letter be written to the Board of Education suggesting that consideration be given to the construction of additional soccer field facilities in San Francisco, and in this connection the possible use of property acquired for the Sunset Community Center, and about to be declared surplus by the S.F. Unified School District, for the construction of four regulation-size soccer fields, be studied.

No objection and *Clerk directed to comply.*

Supervisor Tamaras requested that a letter be written to the Chief Administrative Officer asking that he consider a suggestion that the City of San Francisco sponsor a "Minute for Peace" exhibit at the New York World's Fair, and that he submit his recommendation on this proposal to the Board of Supervisors.

No objection and *Clerk directed to comply.*

Committee Meeting.

Supervisor Tamaras announced that the scheduled meeting of the Judiciary Committee had been changed from Tuesday, February 18, to Wednesday, February 19, 1964, due to the illness of Supervisor Moscone.

R-3 Zoning Change.

The Chair announced that the proposed ordinance pertaining to changes in R-3 zoning, originally scheduled for consideration on Monday, February 24, 1964, would be heard three weeks from that date on March 16th, and that interested individuals would be notified of this change. The reason for re-scheduling this matter is so it would not come up on the same day with the proposed change in floor area ratio from 20-to-1 to 16-to-1, inasmuch both measures will require lengthy discussion.

ADJOURNMENT.

There being no further business the Board, at the hour of 4:00 p.m., adjourned.

ROBERT J. DOLAN, Clerk

Approved by the Board of Supervisors May 18, 1964.

I, Robert J. Dolan, Clerk of the Board of Supervisors of the City and County of San Francisco, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the dates hereon stated and approved as recited.

Passage for Second Reading.

The following recommendation of Public Buildings, Lands and City Planning Committee heretofore considered was taken up:

Amending Section 122 of the City Planning Code by reducing the floor area ratio for buildings in a C-3 District from 20.0 to 1 to 16.0 to 1.

File No. 198-63-2, Ordinance No.

The Chair called attention to a wire dated February 20, 1964, from J. W. Ehrlich, copies of which were addressed to each Supervisor, requesting that action on this matter be deferred until a meeting when a full membership of the Board is present.

Filed.

Supervisor Boas presented a statement favoring enactment of subject measure, stressing the point that he felt a 20 to 1 ratio was equivalent to no control at all, and the beauty, comfort and economic values of the city require imposition of 16 to 1. He added he agreed with the proposal that the City Planning Department should be authorized to proceed with plans for a study aimed at further zoning refinements of various parts of the C-3 District.

Motion to Continue Consideration.

Supervisor Ertola, seconded by Supervisor Tamaras, moved that consideration be continued for one week to allow for presence of full membership to vote on subject legislation.

Motion failed to carry by the following vote:

Ayes: Supervisors Ertola, Ferdon, Tamaras—3.

Noes: Supervisors Blake, Boas, McCarthy, Morrison, Moscone, Tinney—6.

Absent: Supervisors Casey, McMahon—2.

Supervisor Tamaras stated he felt that this was piece-meal legislation and should not be enacted prior to the completion of a thorough study of what restrictions are required in the C-3 areas. He indicated that he believes controls are necessary, but to avoid confusion and loss of public confidence no change should be made until a proper ordinance can be prepared.

In reply to question of Supervisor Ertola, Mr. James R. McCarthy, Director of Planning, indicated that since the floor area ratio has been in effect (May, 1960), two buildings have been approved which exceed the basic 16 to 1 ratio.

In reply to questions by Supervisors McCarthy and Boas, Mr. James R. McCarthy answered that a supplemental appropriation for the employment of specialized consultant assistance, and a period of one year's time from the date of availability of funds, would be required to produce a report and recommendation for legislation on premium criteria, the functional distinction between various areas of the C-3 District, and the establishment of varying regulations in different parts of the District. He qualified this statement by indicating that every effort would be made to present an interim report in six months on the premium provisions, and these would be given priority emphasis; however, the full year would be needed for arriving at definitive conclusions because of the inter-relationship of the factors involved.

Passed for Second Reading by the following vote:

Ayes: Supervisors Blake, Boas, Ferdon, McCarthy, Morrison, Moscone, Tinney—7.

Noes: Supervisors Ertola, Tamaras—2.

Absent: Supervisors Casey, McMahon—2.

Taken Up Out of Order.**Reference to Committee.**

Over the objection of Supervisor Blake, the Chair ruled that the following motion of Supervisor Morrison, seconded by Supervisor Boas, would be taken up out of order:

Motion—That the Board of Supervisors go on record as favoring an immediate study of zoning controls for the entire downtown region, which would yield sub-regions of the district for different treatment and would go into the question of bonus provisions; and asking the City Planning Commission to consider immediate submission of an application for supplemental appropriation to carry out such study.

Referred to Public Buildings, Lands and City Planning Committee.

Final Passage.

The Board resumed consideration of the following recommendations of Finance Committee, heretofore considered and temporarily postponed:

Appropriating \$6,915, various departments, for operations; an emergency measure.

File No. 80-64-1, Ordinance No. 37-64.

Finally passed by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—9.

Absent: Supervisors Casey, McMahon—2.

Appropriating \$650, War Memorial, for temporary salaries, an emergency measure.

File No. 84-64, Ordinance No. 36-64.

Finally passed by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—9.

Absent: Supervisors Casey, McMahon—2.

Adopted.

The following recommendation of Public Buildings, Lands and City Planning Committee heretofore considered and continued, was taken up:

Transferring jurisdiction from Department of Electricity to Fire Department of certain real property required for a headquarters site.

File No. 443-63, Resolution No. 106-64.

Communications

The Clerk presented the following communications:

From William F. Murray, Chief of the Fire Department, replying to inquiries from members of the Board of Supervisors relative to property transfer, and indicating that the subject location is the "most nearly ideal" site that can be found and has the approval of the Fire Commission and the City Planning Commission.

From Mr. Walter H. Shorenstein, President of Milton Meyer & Company, expressing opposition to construction of Fire Department headquarters on property at 264 Golden Gate Avenue.

Ordered filed.

Explanation of Vote.

Supervisor Blake said he felt the location in question was being chosen as a matter of expediency because the land was available, not because this was the best possible site for the Department's headquarters. He stated he felt it was poor planning to put such a facility in this location, which might be better utilized for construction of badly needed housing, and that the activities carried on at the headquarters would be annoying to its close neighbors — the YMCA building, Golden Gate College, KGO-TV studio, St. Boniface Church and others, and would cause traffic problems because of the one-way street pattern in the area. He suggested that the headquarters be located in Western Addition Area A-2 or South of Market, instead.

Supervisor Tamaras stated he felt an excellent job had been done in making this selection, and while there is no perfect location, he agreed with Chief Murray's conclusion that this site would be entirely satisfactory.

In reply to Supervisor Morrison's inquiries, Mr. James R. File No. 270-63-2, Ordinance No.

MOTION.

Supervisor Tamaras, as a recommendation of the Judiciary Committee, and as a substitute for the amendments proposed by the Board of Supervisors on February 17, 1964, to the schedule of compensations submitted by the Civil Service Commission on January 31, 1964, and revised by the Commission on February 26, 1964, moves that the compensations set forth in the Judiciary Committee recommendations be approved and adopted; that the schedule of compensations so amended be included in File No. 270-63-2, the Salary Standardization Ordinance of 1964 pursuant to Charter Sections 151 and 151.1; and that the amendments to the administrative provisions of said Ordinance, recommended by the Judiciary Committee and hereinafter more specifically set forth, be approved, adopted, and included in said Ordinance, seconded by Supervisors Ertola and Moscone.

**STATEMENT BY SUPERVISOR TAMARAS RELATIVE
TO SALARY STANDARDIZATION ORDINANCE**

Your Judiciary Committee presents to you today its recommendations in connection with File No. 270-63-2, the Salary Standardization Ordinance of 1964 for Miscellaneous Employees pursuant to Sections 151 and 151.1 of the Charter.

General Classification Survey: Incorporated in the Salary Standardization Ordinance for 1964 are new numerical classification designations for existing alphabetical classifications where no status problems are involved. Where status problems are involved the existing alphabetical-numerical designations have been retained. When those problems are resolved it is anticipated that numerical designations solely will be assigned all classes of employments.

Administrative Provisions: The Civil Service Commission has considered and decided upon numerous and varied requests for amendments to the administrative provisions of the Salary Standardization Ordinance, affecting working conditions of the employees involved.

Culminating its considerations, the Commission has forwarded to the Board of Supervisors the administrative provisions as recommended by the Commission. A copy is before each Board member, accompanied by a letter of explanation of the recommended deletions, additions, and revisions.

The Judiciary Committee studied intensively these administrative provisions, giving careful attention to representations made both verbally and in writing by interested individuals and representatives of organizations. As a result, the Committee recommends that the Board approve and adopt only the amendments to the administrative provisions of the Salary Standardization Ordinance appearing in the copy before you.

Briefly, the changes recommended in the administrative provisions are as follows:

(1) Sec. VI (c). Clarifies definition of elections for which employees are allowed time off to vote.

(2) Sec. VII (a). Provides that a promotive appointee will get, generally, not less than 7½% to 10% above the former salary.

(3) Sec. VII (b). Permits Civil Service Commission to adjust salary increments for promotive appointees so that a prior appointee will not get less than a later appointee.

(6) Sec. IX (last paragraph). Adds "accrue and" to description of increments which become due and payable, on advice of City Attorney.

It is the recommendation of your Judiciary Committee that such proposed amendments to the administrative provisions of the Salary Standardization Ordinance be adopted, and therefore they are included in the comprehensive motion for amendment with which I opened these remarks.

Schedule of Compensations: The Judiciary Committee presents to the Board its recommendation for amendment of the schedule of compensations. The members of the Committee have made their recommendations with a full awareness of the needs of the community, the services rendered by the employees, the requirement for maintenance of equitable relationships, and the provisions of Charter Sections 151 and 151.1.

The miscellaneous employees of the City and County of San Francisco, those covered by the Salary Standardization Ordinance before you today, number 11,295, divided into 1,214 classifications.

I quote the following tabulation showing, generally and approximately but as accurately as possible, the increases provided for miscellaneous employees in 1963 and those which this year are recommended by the Civil Service Commission and/or the Judiciary Committee:

Classes and Positions Recommended for Increases by Civil Service Commission:

	Classes	Positions	Cost of Increases	Cost of Retirement and Other Benefits
1963	816*	9,108*	\$2,062,368	\$206,238
1964	1,016**	10,592**	3,167,303	316,730

*167 classes, 849 positions not included for increase by Civil Service Commission.

**198 classes, 703 positions not included for increase by Civil Service Commission.

Classes and Positions Recommended for Increase by Judiciary Committee, Additional to Those Recommended by Civil Service Commission:

	Classes	Positions	Cost of Increases	Cost of Retirement and Other Benefits
1963	156	2,119	\$297,384	\$ 29,738
1964	244	3,734	616,896	61,689
Cost of Retirement and Other Benefits				
	Classes	Positions	Cost of Increases	Cost of Retirement and Other Benefits
Total 1963	879	9,759	\$2,359,752	\$235,976
Total 1964	1,091	11,015	3,784,199	378,419

It is to be emphasized that the total costs involved will not necessarily be reflected in the forthcoming fiscal year's budget total. Many of the employees affected have not yet, nor will they in the next succeeding fiscal year or possibly three fiscal years attain the maxima of their respective salary ranges.

Your Judiciary Committee, Supervisor Charles A. Ertola, Super-

visor George R. Moscone and the writer, has held a considerable number of meetings in order to give mature deliberation to the important matter of salary standardization. It has conducted an exhaustive study of the data submitted by the Civil Service Commission, individual employees, other interested persons, and organizations. The counsel of all members of the Board was cordially invited at any or all of those meetings, and the Committee welcomed that which was offered. It was particularly encouraging to note that most of the other Board members were in attendance on the various evenings of our meetings.

The Committee members are grateful for the full measure of advice which their Board colleagues so cooperatively offered.

Thereupon the roll was called on pending motion and it was carried by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—9.

Absent: Supervisors Casey, McMahon—2.

Passed for Second Reading, as amended, by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—9.

Absent: Supervisors Casey, McMahon—2.

Supervisor Tinney explained that he moved deletion of Block 792 because he did not feel the creation of a new diagonal street bisecting this block and channeling traffic down Grove Street into the Civic Center would be good planning. Supervisor Ferdon indicated that with the same reservation, he, too, would vote favorably on the Committee recommendation.

With this understanding, Supervisor Ertola agreed to vote for final passage of the measure.

Fixing date of Monday, March 16, 1964, 2:00 p.m., for hearing the appeal from the decision of the City Planning Commission approving application for conditional use relating to property in Diamond Height Redevelopment Project Area B-1, Moderate Priced Housing Sites 1a, 1b, 2 and 3, for Planned Unit Development.

File No. 129-64-1, Resolution No. 139-64.

(The City Engineer has reported to the Board under date of

March 3, 1964, that the signatures on the appeal have been checked as to ownership of property within a radius of 300 feet of the property covered by this appeal, and it has been found that they represent less than the necessary twenty per cent.)

At the request of the Chair, Deputy City Attorney Blanchard explained that since today the Board was determining a question of fact it was proper to hear the presentation of counsel for appellants on the point of verification of the sufficiency of signatures requisite to perfection of the subject appeal. Thereupon the Chair ruled that the privilege of the floor would be granted to Mr. John J. Ford, III, attorney for the Glen Park Property Owners Association.

Mr. Ford requested that this matter be put over for one week to give appellants time to present affidavits verifying the authenticity of certain signatures which had been disallowed by the City Engineer's Office in determining the adequacy of the number required.

Mr. Blanchard advised that the date of hearing must be set for within thirty days from the date the appeal was filed, and, therefore, the proper action of the Board would be to adopt the resolution before them, with conduct of subject hearing contingent upon the submittal and acceptance of affidavits and other evidence considered sufficient by the Board to prove the sufficiency of signatures requisite to perfect said appeal. He indicated to the Board that inasmuch as they have already made a determination that there should be moderate priced housing in Diamond Heights by approval of the plan, their inquiry at the hearing would be limited to the question of whether or not this conditional use is necessary to the Plan, and if it is the Board would be obligated to approve it.

Thereupon, Supervisor Moscone, seconded by Supervisor Ertola, moved adoption.

Adopted, subject to the stipulation set forth herein, by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor McMahon—1.

SPECIAL ORDER—2:00 P.M.

Hearing of appeal from the decision of the City Planning Commission approving application for conditional use relating to property in Diamond Heights Redevelopment Project Area B-1.

File No. 129-64.

Mr. H. H. Beneke of the Department of Public Works staff indicated that his Department's check of the affidavits submitted revealed that of the four sites contained in the appeal only the one designated as "1b" qualified for hearing by the Board of Supervisors.

In reply to inquiry by the Chair, Deputy City Attorney Thomas J. Blanchard defined the Board's legal position as being bound to proceed in accordance with the findings of the Department of Public Works and confine its hearing to the qualified site. Thereupon the Chair ruled that the Board's consideration would be limited to Site "1b," and Mr. John Ford, III, attorney for the appellant, Glen Park Property Owners Association, was so informed.

Supervisor Moscone, seconded by Supervisor Ertola, moved continuation of consideration for one week pending a full membership of the Board.

No objection and motion carried.

The following communications were presented by the Clerk:

From Frank H. Bartholomew, United Press International, expressing support of proposed revision of R-3 zoning.

From Ray W. Guenther, requesting permission to address Board for presentation of data concerning R-3 zoning standards.

ers and Managers Association, and Thomas Gray, Manager, Down Town Association, supporting position of Labor Council in its resolution recommending re-referral to Committee of proposed amendments to R-3 and C-3 zoning requirements.

Filed.

Supervisor Tamaras remarked he was desirous of amending the legislation to include a provision for the use of the major fraction principle in determining density, which for purposes of calculation would allow that any remaining fraction of one-half or greater of the minimum amount of lot area required per dwelling unit be adjusted to the next higher whole number of dwelling units.

In reply to inquiry of the Chair, Deputy City Attorney Blanchard informed the Board members that such an amendment must be sent to the City Planning Commission for hearing and recommendation before it may be acted upon by the Board of Supervisors.

Supervisor Tamaras, seconded by Supervisor Casey, moved that the legislation be re-referred to Public Buildings, Lands and City Planning Committee for consideration of this proposed amendment.

After discussion and some stated opposition to the passing of retroactive legislation, Supervisor Moseone agreed to change his motion to make the effective date of the moratorium today, March 16, 1964, rather than retroactive to March 2, 1964. Consequently Supervisor Boas announced that he was withdrawing his second to the motion.

Supervisor Moscone, seconded by Supervisors Morrison and Tinney, moved that the motion be amended to provide that the moratorium should be effective March 16, 1964, rather than retroactive to March 2, 1964.

Approving lease by City and County, acting through Recreation and Park Commission, to St. Francis Yacht Club of certain real property and berthing space within Marina Small Craft Harbor.

File No. 432-63, Ordinance No.

Supervisor Morrison, seconded by Supervisors Casey and Boas, moved that subject lease be re-referred to Recreation and Park Commission with a statement that this is being done with an awareness of Charter restrictions on the Board's interference in administrative affairs, but with the hope that the proposed agreement can be renegotiated in line with the Director of Property's recommendation for rental as set forth in his letter of February 19, 1964, and with the City Attorney's letter of February 7, 1964, as it relates to his suggestion for addition of a new paragraph to the agreement concerning rates of pay and benefits to be paid employees.

Communication.

Supervisor Blake presented a letter addressed to him under date of April 2, 1964, by Joseph Belardi, Executive Secretary of the Local Joint Executive Board of Culinary Workers, Bartenders, Hotel, Motel and Club Service Workers, relative to the St. Francis Yacht Club lease.

Filed.

Requests Granted.

Supervisor McCarthy requested that the Clerk be directed to write a letter to the Director of Property asking that he advise the Board whether or not a clause might be included in the lease agreement which would require arbitration of the amount of rent to be paid for the second ten-year term; whether or not such an arbitration clause would mitigate against the grant of favorable financing for planned improvements; and whether favorable financing could be more easily obtained if a basic or "floor" rental figure were to be agreed upon at the inception of the lease.

No objection, and *Clerk directed to comply.*

Supervisor McCarthy requested that the Clerk be directed to write a letter to the City Attorney asking for his opinion as to whether or not it would be possible without violating applicable law or contractual obligations for the Yacht Club presently to pay wages and benefits which are prevailing and being paid, pursuant to existing collective bargaining agreements, to persons performing comparable work in private enterprise, in view of the existing contract between the St. Francis Yacht Club Employees Association and the St. Francis Yacht Club.

No objection and *Clerk directed to comply.*

ROLL CALL FOR THE INTRODUCTION OF MEASURES AND COMMUNICATIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Request Granted.

Supervisor Blake requested that the Clerk be directed to write a letter to the Chief Administrative Officer on the subject of a newspaper report to the effect that plans for construction of an apartment house on the present Public Welfare Building site on Bush Street had been presented to him. Supervisor Blake indicated that it was his understanding that the proposed developers of the property have in mind a lease of air rights above the existing Sutter-Stockton Garage to permit the construction of the apartment house on Bush Street, with the lease revenue defraying the cost of re-locating the Public Welfare Building. In view of repeated abortive attempts to gain authority for a new Public Welfare Building, and the possibility of constructing new Welfare headquarters under the plan referred to, Supervisor Blake stated he would like to know the Chief Administrative Officer's intentions with respect to further negotiations with the developers mentioned.

No objection and *Clerk directed to comply.*

Old Hall of Justice Building.

Supervisor Blake requested that there be referred to the Commercial and Industrial Development Committee the proposal now pending before the Finance Committee: That the Old Hall of Justice property be demolished and the site used for construction of a new Chinese Cultural Center, similar to the Japanese Cultural Center, which is planned for the Western Addition Redevelopment area. It is Supervisor Blake's opinion that the Commercial and Industrial Development Committee should study the suitability of the proposal and then submit its findings to the Finance Committee for consideration of the financial aspects thereof. The President stated that the entire matter had been under close study by the Finance Committee for many months and that a further public hearing by the Finance Committee was scheduled some time ago, to be held on June 3, 1964.

No Board action was taken on Supervisor Blake's request.

Adopted.

Commending James E. Leary.

Explanation of Parliamentary Procedure.

The Chair explained the parliamentary procedure as follows: "An 'Aye' vote will disapprove the decision of the City Planning Commission and permit the modification of conditions relating to property located on Haight Street, east of Broderick; a 'No' vote will approve the decision of the City Planning Commission and deny the application for modification; it requires eight 'Aye' votes to disapprove the decision of the City Planning Commission."

No: Supervisor McMahon—1.

Action Rescinded.

Supervisor McMahon, seconded by Supervisor Ferdon, moved that the Board's action in finally passing the foregoing ordinance be rescinded.

No objection, and action *rescinded*.

Supervisor McMahon, seconded by Supervisor Ertola, moved that

Section 4 of the proposed ordinance, which requires demolition by the purchaser of improvements at 315 Duncan Street within a reasonable time after completion of the purchase thereof, be deleted.

Explanation of Vote.

Supervisor McMahon stated she felt the building in question, an abandoned Fire House, could be easily and artistically converted to residential use; that less attractive buildings in Jackson Square had been beautifully remodeled, and this building could be superior in appearance to much of the new R-3 construction which is being permitted, and which is objectionable to so many people. Supervisor Tinney stated he felt the building was out of character in the neighborhood, and to rehabilitate it would cost several times as much as it would to construct a new R-3 building in its place.

Motion to amend failed by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, McMahon—5.

Noes: Supervisors Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—6.

Endorsing use of Alcatraz Island as a site for a symbol commemorating the founding of the United Nations.

File No. 193-64, Resolution No. 229-64.

Supervisor Blake, seconded by Supervisor Ertola, moved that the subject resolution be re-referred to Committee for study of its possible ramifications in a decision by the Federal Government on ultimate use of the entire island. He added he felt the Board of Supervisors should establish policy with regard to the future of Alcatraz before the Government Committee delegated to study the matter begins its hearings next month. Supervisor Boas stated that he opposed the motion because the idea for a commemorative United Nations symbol on the island had been seriously considered for a long time by a representative and responsible segment of the community, and no purpose could be served by further Committee consideration of this proposal.

Supervisor McCarthy stated that he understood the symbol would occupy only a very small area, and would not preclude other uses for the rest of the island.

Supervisor Morrison stated that he would vote against the motion because he felt Alcatraz would be a proper locale for a memorial to the United Nations. However, he commented that he felt the entire matter should eventually be the subject of further proceedings by the Board of Supervisors.

Supervisor Ertola stated he felt a memorial to the United Nations

should be located in San Francisco, where the United Nations was founded, and not on any of the islands in the Bay. He indicated that he felt there were other more suitable uses for the island.

Motion *defeated* by the following vote:

Presentation of Guest.

The Chair presented and welcomed Mr. Ed White, representing the West of Twin Peaks Council.

Consideration Temporarily Continued.

Hearing Held.

SPECIAL ORDER—2:00 P M.

Public Hearing and Consideration of the Proposed Budget and Pro-

posed Annual Appropriation Ordinance for the Fiscal Year 1964-1965.

File No. 100-64.

The Chair inquired if there was any person in attendance who desired to speak on any item in the budget.

The following persons spoke in favor of restoration of the sum of \$275,900 to the budget of the Recreation and Park Department for construction of the Sunnyside Playground—

Mr. Paul Pease, 953 Teresita Boulevard;

Mrs. Robert Armstrong, 564 Melrose Avenue;

Mr. Ross, Sunnyside Improvement Club;

Mr. Samuel Kline, Yerba Buena Plaza;

Mrs. George Yollick, 283 Mangels Avenue.

Mr. Tom Egan, representing the San Francisco Association for Mental Health, urged favorable consideration of request for additional employments in the budget of Community Mental Health Services.

Mrs. Eva Lapin, representing the Golden Gate Chapter of the National Association of Social Workers, urged favorable consideration of budget request for two new positions in the observation ward of the Psychiatric Clinic.

Presentation of Guests.

The Chair temporarily interrupted the hearing of the Budget to note the presence of, and to welcome the Hon. Juan Francisco Torrent, Mayor of Corrientes, Argentina, and Mrs. Torrent.

Supervisors Tinney and Moscone escorted Mayor and Mrs. Torrent to reserved seats, and consideration of the calendar item was continued.

Public Hearing Resumed.

Mrs. Morse Erskine, a member of the Mayor's Committee for Litter Control, urged that budget item to provide 600 pole-type litter baskets be retained.

Mr. Lloyd E. Graybiel, representing the San Francisco Municipal Conference, called attention to the continuing upward spiral in assessments and tax rates, and urged careful consideration by the Board members of requests for new employments and capital expenditures.

Mr. Ben Seaver, 1191 Stanyan Street, and Mrs. A. Wilshire, 1502 Masonic Avenue, who said she was speaking in behalf of Women's International League for Peace and Freedom, urged deletion of funds budgeted for the Disaster Corps.

Mrs. Carl Stern, representing Friends of the San Francisco Public Library, expressed her group's support of the Public Library and urged that no deletions be made from its budget.

Mr. Walter S. Johnson stated that a group of proponents of plans for reconstruction of the Palace of Fine Arts was present, but inasmuch as their spokesman, Mr. Caspar Weinberger, had not yet arrived, he requested that the hearing be continued until Mr. Weinberger was present.

The President acknowledged Mr. Johnson's request, and there being no objection, consideration was temporarily continued.

The President reported further in this connection that a member of the Board of Supervisors had requested that the Board resolve itself into a Committee of the Whole to hear from proponents of the Palace of Fine Arts Reconstruction Plan. He stated that this would not be necessary since the presence of Mr. Johnson and the other proponents today and their presentations would constitute a public hearing on the matter.

The Board resumed its Public Hearing and Consideration of the Proposed Budget and Proposed Annual Appropriation Ordinance for the Fiscal Year 1964-1965, heretofore commenced and temporarily continued.

Mr. Caspar Weinberger, representing the Palace of Fine Arts League, explained the status of the League's drive to raise \$800,000 for reconstruction of the Palace of Fine Arts. He stated that at present they were \$250,000 short of their goal, and that this sum, plus

\$800,000 of City funds, would be required before the construction contract could be certified. He urged that provision of necessary funds be made in the budget to permit commencement of the work. He promised that the League's fund-raising drive would continue, and stated that this money would be turned over to the City to help pay for the reconstruction.

Mr. Walter S. Johnson, the donor of a \$2,000,000 gift towards the Palace of Fine Arts reconstruction project, urged the Board to give favorable consideration to the provision of necessary City funds for the reconstruction. He expressed his own willingness to contribute additional funds, as well as to underwrite payment of the pledges which have been made to the Palace of Fine Arts League.

The following proponents of the reconstruction project were also given the privilege of the floor:

Bay Area Air Pollution Control District.

Supervisor McMahon, seconded by Supervisor McCarthy, moved immediate adoption of a resolution endorsing AB-174 now pending before the State Legislature, which would increase by 1/2¢ the

amount of the tax rate which goes to the Bay Area Air Pollution Control District.

Supervisor McMahon explained that the point had been reached where the cost of administration of new smog control regulations requires more revenue for the District. She stated that the District planned to use the additional funds solely for enforcement purposes. She added that the subject bill had passed the Assembly and was scheduled to go before the Senate on Wednesday of this week, and that Senator McAteer had requested an expression of policy on the bill by this Board of Supervisors prior to that time.

Supervisor Boas stated that while he appreciated Supervisor McMahon's explanation, and was in favor of strengthening the effectiveness of the Air Pollution Control District, he felt that the resolution should first be heard by a Committee and, therefore, was exercising his prerogative to request that this be done.

Supervisor McMahon, thereupon, withdrew her motion, explaining that there was not sufficient time to permit a Committee hearing and communication of City policy to Senator McAteer before Wednesday, and because of this there was no point in sending the matter to Committee.

Amending the City Planning Code by amending and adding various sections, to revise the standards of the existing R-3 Zoning District,

to create a medium density district to be designated R-3.5 Zoning District, and to revise certain standards presently applicable in all zoning districts.

File No. 435-63, Ordinance No.

The Clerk presented a communication, dated May 8, 1964, relative to the subject legislation from the Real Estate Board, stating opposition to inclusion or consideration of any provisions in the R-3 Zoning Ordinance, which affect the R-4 or R-5 Districts.

Ordered *filed*.

Request Granted.

Supervisor McCarthy stated that he believed the City Planning Department should give consideration to granting permission for the use of 25% of backyard space in subject districts for at least "turn-about" parking purposes, and further, to the application of the "major fraction" principle to allow for eight instead of six units in an apartment house, as well as for four instead of three, which the legislation now provides. The Chair requested that the Clerk be directed to incorporate Supervisor McCarthy's suggestion in a letter to the Director of Planning for consideration, and at the same time to send a copy of the Real Estate Board's communication to the Director, so that he may forward to that Board the same reply to the objections contained therein, as he made to the Board of Supervisors today.

The following from Finance Committee with recommendation "Do Pass After Amendment" was taken up:

Annual Budget of the City and County of San Francisco for the fiscal year 1964-1965.

File No. 100-64.

**Budget Statement of
Supervisor Joseph E. Tinney
On Behalf of Finance Committee**

The Finance Committee presents to the Board of Supervisors today the proposed budget of the City and County of San Francisco for the fiscal year 1964-1965. The Committee recommends it unanimously, and asks that it be adopted at the regular meeting of the Board today, after approval of the amendments proposed by the Committee.

Two itemized lists of Finance Committee recommendations have been furnished Board members, and they, together with the two volumes of the budget, and the supplemental budget requests, constitute a comprehensive budget report.

Supervisor Jack Morrison and the writer, as member and chairman, respectively, of the Finance Committee, reviewed each item as their individual consciences dictated, in what each deemed the best interests of the community, and have agreed that their recommendations shall come to the Board with unanimity. The state of health of Supervisor Clarissa S. McMahon, the third member of the Finance Committee, precluded her participation in the substantial portion of the Committee's hearings and deliberations, and in the recommendations predicated thereon.

The Finance Committee has held over a dozen meetings to consider the voluminous proposed budget. After exhaustive scrutiny, and with the objective of effecting expenditure curtailments without impairment of essential services, we submit the recommendations dealt with hereinbelow.

Budget Totals and Tax Rate:

Departmental budget requests for \$362,263,076 and supplemental budget requests for \$3,385,231, submitted to the Mayor, totaled \$365,648,307, an increase of \$39,777,780 over the current budget.

The Mayor approved \$345,457,269 of the budget requests and \$2,134,316 of the supplemental budget requests, or a total of \$347,591,585, including salary standardization adjustments to date but excluding bond funds.

The Finance Committee recommends an additional \$4,324,332 reduction of budget requests and \$580,504 reduction of supplemental budget requests, or a total of \$4,904,836. This is subject to certain adjustments which will be computed by the Controller in due course. The total reduction recommended includes an adjustment of \$1,045,000 which accrues from estimated requirements based upon contemplated bond sales which have been deferred. That amount is comprised of \$475,000 attributable to general City bonds and the remainder to public utility bonds.

We cite the following examples of the budget items over which,

among others, the Board has no control: Board of Education budget (\$67,977,089), subject to possible increase for salary and other purposes; salary requirements for all employees, including increments made mandatory by the voters' approval of various Charter salary standardization methods (\$174,899,592); retirement contributions (\$16,975,960); Health Service System contributions (\$2,076,301); Social Security contributions (\$2,609,130); cost of constructing, maintaining and improving libraries (\$631,892); parks and squares (\$1,579,731); playgrounds (\$1,105,812); Art Commission, for a symphony orchestra (\$78,986); streets, sewers and buildings (\$12,496,480); elections (\$619,449); civil service (\$78,986); San Francisco Bay Area Air Pollution Control District (\$145,059); bond interest and redemption (\$32,671,065). These items alone total \$313,945,532 of the \$345,457,269 budget as submitted by the Mayor without the supplemental requests.

The absence of Supervisorial control over these items and others stresses the correlative that there is a relatively minor portion of the total budget over which the Board may exert any control. The Board's jurisdiction extends mainly to items for contractual services, personal services, equipment, materials and supplies, and capital expenditures.

Nevertheless, a determined effort has been made to minimize the increase in the tax rate which will be computed in September following ascertainment of revenue and other adjustments.

Specific Items:

Since a few of the items which appear in the budget before you have attracted more than average public interest as reflected in correspondence, press reports, personal contacts, and otherwise, I should like to recall your attention to them specifically and briefly:

New Employments:

Department heads requested a total of 701 new employments. The Mayor reduced that number to 384. The Finance Committee recommends that the Board allow 215. Of the latter number, 30 are located in the Department of Public Health, 42 in the San Francisco Unified School District, 50 in the Police Department, and 49 in the Public Welfare Department. Since the personal service total is the largest single factor in the budget, exceedingly careful review was accorded each request for a new position. Favorable Committee action was accorded only to those which were justified by urgent public need.

With respect to the 50 positions of Policemen recommended for approval, the Finance Committee has conditioned its recommendation on employment of these men solely for the police duties outlined by Chief Cahill. In order to assure such employment, the following language is to be set forth in the Annual Appropriation Ordinance:

"These funds shall be set up in a separate appropriation No. 4.161.110.100 and shall be subject to the provisions of Section 10 and not to the provisions of Section 11-A of the Annual Appropriation Ordinance.

"Positions for Q-2 Policeman provided for under Appropriation 4.161.110.100 shall not be filled when there are vacancies in the positions provided for this rank under Appropriation No. 4.161.110.-000."

Department of Public Health:

The Community Mental Health Services demonstrated a need for augmentation of its program undertaken pursuant to provisions of the Short-Doyle Act, and thus substantial appropriations therefor have been recommended.

Recreation and Park Department:

The Finance Committee has submitted no recommendation concerning inclusion of a capital item in the amount of \$850,000 to augment presently available funds for the proposed reconstruction of the Palace of Fine Arts. The Committee and the full Board were aware, of course, of the representations made in this matter at the public hearing on the budget held in the Board meeting of April 27th. However, the entire matter had been the subject of negotiation between the Mayor and the Palace of Fine Arts group, and the results thereof were not made known to the Committee prior to the conclusion of its budget sessions. Shortly thereafter, a communication was received from the Mayor in which it is requested that the Board give consideration to the addition of \$850,000 to the capital program for the Palace of Fine Arts, with certain conditions to be attached to such appropriation. A copy of the Mayor's letter has been delivered to each member of the Board.

Although the Mayor, in conformity with recommendations of the Budget Priority Committee, had deleted an item of \$275,900 for construction of the Sunnyside Playground located on Melrose Avenue between Verna and Edna Streets, the Committee has recommended approval of a capital item of \$190,000 for the purpose of completing necessary grading and construction of retaining walls. Additional funds needed to complete the playground project may be requested in future fiscal years. Funds were appropriated in the 1961-1962 budget to purchase the necessary land for this playground, and all studies made by the City Planning Department and the Recreation and Park Department indicate the serious need for a playground at this location, in a heavily populated area where no playground exists.

The Committee has also recommended the inclusion of a capital item of \$363,500, in the Recreation and Park Supplemental Budget Requests, for purchase of the Allyne property, located at Green and Gough Streets, and preservation thereof as a City park. The Committee recommends at the same time that a condition be attached to the appropriation requiring that the house now located on the Allyne land be removed and that the land be made available for open park and recreation purposes. It is to be noted that there is \$233,000 in the Recreation and Park Department unappropriated balance of Real Property Account No. 3990 and \$103,560 from anticipated receipts from the State of California for sale of land at Sharp Park Golf Course, both sums being available for purchase of the Allyne property. The Department states that the amount of Federal funds and private donations which may be available for the Allyne purchase cannot be determined at this time.

Public Library:

The Finance Committee during its deliberations expressed a dis-

position to recommend an additional appropriation for the purchase of books. However, upon disclosure of the fact that the Library Commission had on hand the amount of \$47,500 in the book account which had not been expended as yet, the Committee recommended no funds for this purpose additional to those recommended by the Mayor.

Hetch Hetchy:

The Committee was impressed by the representations made by representatives of the Hetch Hetchy project to the effect that continued effective operation of the system will be endangered in the event that replacement of the Moccasin power house is not authorized at this time. Accordingly, the proposed budget contains an item of \$4,125,000 for this purpose, which, while only about half of the total cost involved, will provide for engineering and placing of orders for major items of equipment, such as turbines and generators, requiring twelve to eighteen months for delivery. The Department reports that, based on a life expectancy of fifty years and an interest rate of 3½% increase in revenue and reduction in operation and maintenance costs will result in an annual net gain of approximately \$120,000.

General Comments:

It should be noted that all moneys in the Sales Tax Capital Improvement Fund in excess of those required for both interest and redemption are to be used for the purpose of offsetting items in the budget for tax-supported capital improvements. Similar treatment will be accorded moneys in the Land Purchase Reserve Fund.

Acknowledgments:

The Finance Committee commends and thanks Controller Harry D. Ross for his invaluable assistance. Acknowledgment is also made of the services rendered by the staffs of the Controller and the Clerk's Office.

MOTION: On behalf of the Finance Committee, I move that the annual budget, as submitted by the Mayor, be amended in accordance with the recommendations of the Committee as set forth in the two lists presented to the Board.

Motion seconded by Supervisor Morrison.

Motion to Amend.

Police Department

Supervisor Morrison, seconded by Supervisor Moscone, moved that the budget, as transmitted by the Mayor and submitted by the Finance Committee be amended by changing the item for the Police Dog Program in the Police Department, appearing on Page 155, Line 17, from the amount of \$9,900 to Nil.

Supervisor Morrison stated that when the program was first initiated two years ago he thought it was mainly a gimmick, having little relevance to law enforcement, and no testimony presented to the Committee had changed his mind.

Supervisor Tinney explained that the budget item is for the inclusion of 5 additional dogs to augment the present squad of 7 and provide a complete night patrol. He stated the Police Department feels that the dogs provide an invaluable service and are the means of preventing injury or death to Police Officers as well as law breakers. He indicated that the Chief has pledged that he will not at any time use the dogs to suppress peaceful demonstrations nor will he use them on foot patrol.

Chief Thomas Cahill and William Clecak, President of the Police

Commission, corroborated Supervisor Tinney's report and reiterated the pledge that the Department will not use Police dogs against peaceful political or civil rights demonstrators.

Motion defeated by the following vote:

Ayes: Supervisor Morrison—1.

Noes: Supervisors Blake, Boas, Casey, Ertola, Ferdon, McCarthy, Moscone, Tinney—8.

Absent: Supervisors McMahon, Tamaras—2.

Motion to Amend.

Recreation and Park Department

Supervisor Blake, seconded by Supervisor Ertola, moved that the proposed annual budget be amended by including therein a capital item for reconstruction of the Palace of Fine Arts in the Recreation and Park Department, in an amount of \$850,000.

Supervisor Blake stated that the subject amount is required to provide sufficient funds, in addition to State and private contributions and the City Bond issue, to make the reconstruction possible.

Supervisors Boas and Morrison stated that they do not favor reconstruction of the main building, or "shed" as it has been called, but would assent to restoration of the rotunda and colonnades, if this alone were possible. The Controller was called on to comment on this possibility, and he stated that reconstruction of this portion of the Palace of Fine Arts, a relatively small item in the total cost, is a specific condition in the terms of the bond issue approved by the voters, the terms of the contribution from the State of California and the terms of the gift from Mr. Walter Johnson. Supervisor Tinney suggested that the motion be amended to include two conditions suggested by the Mayor: That a Board of Trustees be established whose duty it would be to maintain the building without cost to the taxpayers of San Francisco, and a guarantee of payment of the \$750,000 in pledges secured by the Palace of Fine Arts League be obtained.

In this connection, Deputy City Attorney Thomas Blanchard informed the Board members that creation of a Board of Trustees would probably require a Charter Amendment as well as a change in the City's agreement with the State relative to the project.

Motion carried by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, Ferdon, McCarthy, Moscone, Tinney—7.

Noes: Supervisors Boas, Morrison—2.

Absent: Supervisors McMahon, Tamaras—2.

Motion to Amend.**War Memorial.**

Supervisor Blake, seconded by Supervisor Casey, moved to amend the proposed Finance Committee amendments to the proposed annual budget, by deleting the Committee's recommended amendment to the items for Statuary Court ceiling improvements and Statuary Court acoustical improvements in the War Memorial Department, appearing on page 1002, lines 2 and 3, so that the said items will remain at \$6,200 and \$3,100, respectively, as recommended by the Mayor.

Supervisors Tinney and Morrison stated that they felt these were valid deletions of items not essential to the current year. They added that an item has been recommended for the expenditure of \$10,000 to be used for employment of an engineering and architectural team to inspect the entire War Memorial Building and come back with a complete report on its condition and recommendations for correction of deficiencies. This will be the first such inspection to be made since the building was erected over 30 years ago, and the Committee felt that additional expenditures for improvements should wait until the report is completed.

Motion defeated by the following vote:

Ayes: Supervisors Blake, Casey, Ertola—3.

Noes: Supervisors Boas, Ferdon, McCarthy, Morrison, Moscone, Tinney—6.

Absent: Supervisors McMahan, Tamaras—2.

Motion to Amend.**Public Health-Community Mental Health Services.**

Supervisor Blake, seconded by Supervisor McCarthy, moved to amend the proposed Finance Committee amendments to the proposed annual budget, by deleting the Committee's recommended amendments to the items for ten new positions in the Public Health-Community Mental Health Services, Administration, so that the said items will remain as recommended by the Mayor, as follows:

1 Senior Management Assistant, appearing on page 759, line 14, to remain at \$8,940;

1 Management Assistant, appearing on page 780, line 20, to remain at \$7,728;

1 Clerk-Stenographer, appearing on page 784, line 18, to remain at \$4,860;

2 Part-time Physician Specialists, appearing on page 784, line 23, to remain at \$13,512;

1 Senior Physician Specialist, appearing on page 784, line 25, to remain at \$14,196;

1 Public Health Nurse, appearing on page 785, line 5, to remain at \$6,516;

3 Psychiatric Social Workers, one of which was recommended by the Committee, appearing on page 785, line 7, total of 3 positions to be included at a cost of \$21,564;

1 Chief Psychiatric Social Worker, appearing on page 785, line 8, to remain at \$8,940.

Supervisors Blake and McCarthy stated they felt that retention of the subject positions is essential to an improved Community Mental Health Program; and that such a program will result in fewer patients being sent to State institutions. Both Supervisors stated they felt the positions for management personnel should be provided so that the professional staff could devote all its time to their specialized duties, and not be tied down with paper work.

Supervisor McCarthy requested that a greater proportion of the State subvention for Community Mental Health services be spent for this purpose.

Supervisors Tinney and Morrison stated that the Department of Mental Health has been expanded in San Francisco and the Committee had the vital concern of these patients before it. However, they felt that the management personnel positions were considerably overrated and the need for them and the clerical position was not satisfactorily demonstrated. They felt the establishment of part-time-professional positions was not justified, and that these should be full-time employees, if the positions were created at all. The other positions were eliminated because they were designed to constitute part of a team, which was made incomplete by other deletions and thus ineffective.

Supervisor Tinney added that San Francisco is allowing tax money to the Department of Public Health and is, in fact, paying more taxes for its services than any other community in the State. He emphasized that the money being provided by the State is actually coming from San Francisco and is merely being returned on this basis.

Motion defeated by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, McCarthy—4.

Noes: Supervisors Boas, Ferdon, Morrison, Moscone, Tinney—5.

Absent: Supervisors McMahon, Tamaras—2.

Motion to Amend.

Public Defender.

Supervisor Moscone, seconded by Supervisors Blake and Casey, moved to amend the proposed Finance Committee amendments to the proposed annual budget by deleting the Committee's recommended amendment to the item for Legal Stenographer, in the Public Defender's Office, appearing on page 177, line 12, so that the said item will remain at \$4,980, as recommended by the Mayor, and by deleting the Committee's recommended amendment to the item for Principal Attorney-Civil and Criminal, in the Public Defender's

Office, appearing on page 177, line 21, so that said item will remain at \$14,544, as recommended by the Mayor.

Supervisor Moscone stated that he believes the overworked condition of the staff of the Public Defender's office necessitates the reinstatement of these employments.

Supervisor Tinney stated that one full-time attorney had been added to the staff, which the Committee felt would be a valuable adjunct to the office. The Committee felt that the addition of still another position, at the top of the scale in the Principal Attorney category, was not justified, and that the Department should explore the possibility of instituting a system of calling upon a voluntary panel of attorneys for assistance when and if more help should be required.

Motion carried by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, McCarthy, Moscone—5.

Noes: Supervisors Boas, Ferdon, Morrison, Tinney—4.

Absent: Supervisors McMahon, Tamaras—2.

Motion to Amend.

City Attorney.

Supervisor McCarthy, seconded by Supervisor Casey, moved to amend the proposed Finance Committee amendments to the proposed annual budget by deleting the Committee's recommended amendment to the item for Principal Attorney-Civil and Criminal, in the City Attorney's Office, appearing on page 26, line 4, so that the said item will remain at \$14,544, as recommended by the Mayor.

Supervisor McCarthy stated that he thought the additional need for one Principal Attorney to serve full time with the San Francisco Retirement Board is justified.

Supervisor Tinney stated that such an attorney would not serve full time with the Retirement Board, as the assignment would be rotated. He indicated that the Committee felt that the solution was not to create another attorney position in the City Attorney's Office, but to establish an entirely different method of presentation of matters before this important Board of the City and County.

Motion defeated by the following vote:

Ayes: Supervisors Casey, McCarthy, Moscone—3.

Noes: Supervisors Blake, Boas, Ertola, Ferdon, Morrison, Tinney—6.

Absent: Supervisors McMahon, Tamaras—2.

Thereupon the roll was called on the pending motion by Super-

visor Tinney, as said motion was amended by the Board by the preceding motions, and it was adopted by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, Morrison, Moscone, Tinney—8.

No: Supervisor Casey—1.

Absent: Supervisors McMahon, Tamaras—2.

Supervisor Morrison seconded.

Explanation of Vote.

Supervisor Casey stated that he did not want to be put in the position of voting against the entire budget when he was opposed only to certain items which were recommended by the Board, and asked for a ruling by the City Attorney on his position.

The Chair advised Supervisor Casey that he did not need such a ruling, and thereupon Supervisor Casey requested that his vote be registered as "No."

Taken Up Out of Order.**Adopted.**

There being no objection, at the request of Supervisor Blake, the following recommendation of the Streets Committee, appearing on the calendar under New Business, was taken up out of order.

Disapproving State Highway Engineer's report and recommendations dated April 19, 1964, on route studies relative to the proposed Pan-

handle Parkway Freeway near Octavia and Oak Streets and the existing Golden Gate Bridge approach near Park Presidio Boulevard.

File No. 582-59-6, Resolution No. 270-64.

Supervisor Morrison, seconded by Supervisor Tinney, moved that this matter be referred back to the Streets Committee with instructions that the Committee hold hearings at the earliest possible time on the modified FKL-3 alternate proposal advanced by the City Planning Department and the City Planning Commission.

At the request of Supervisor Blake, Supervisor Morrison, with the consent of Supervisor Tinney, withdrew his motion to refer the matter back to Committee.

Calendar item *adopted* by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, Ferdon, McCarthy, Morrison, Tinney—8.

No: Supervisor Moscone—1.

Absent: Supervisors McMahon, Tamaras—2.

After the roll call was announced, Supervisor Moscone presented, in writing, the following explanation of his vote and requested that it be included in the Journal.

Explanation of Vote.

Supervisor Moscone explained that his "No" vote, on the resolution disapproving the State plan, was not to be construed in any way as approving the plan recommended by the State Division of Highways in the Golden Gate Park-Panhandle area. He is definitely opposed to the State plan, and his vote was merely one of protest against repeated abortive attempts to delay a categorical renunciation of the State plan which apparently the majority of San Franciscans oppose.

During the discussion on the motion to disapprove the recommendation of the State Division of Highways, Supervisor Morrison agreed to vote in favor of the motion to disapprove the State plan on the assurance of Supervisor Blake that the latter would vote in favor of a subsequent motion to be made by Supervisor Morrison, to refer to the Streets Committee the FKL-3 proposal previously submitted by the City Planning Commission. Supervisor Moscone protested that these tactics would not result ultimately in an agreement by the Board of Supervisors to a freeway plan, inasmuch as the FKL-3 proposal possesses the same disadvantages as the plan recommended by the State Division of Highways.

Supervisor Moscone stated that the questions of whether a freeway is needed, and, if so, where it should be located, ought to be resolved by a Joint Committee of the Streets and Highways Committee and the City Planning Commission.

Adopted.

Supervisor Morrison, seconded by Supervisor Tinney, moved that

the modified FKL-3 alternate proposal which has been brought forward by the City Planning Department be studied at the earliest possible time by the Streets Committee.

Supervisor Morrison stated that he would request that a letter be written from the Board to the Director of Planning asking that he appear at the meeting of the State Highway Commission, scheduled for Thursday, May 21, and tell them that this modified plan is under study by the Streets Committee and to take this into consideration in making their decision on the Highway Engineer's recommendation.

Supervisor Blake stated that he had no objection to the Director of Planning attending the subject meeting, but that he would attend himself and present the City's position to the Commission.

Request Granted.

The Chairman stated that the modified FKL-3 plan is already within the Streets Committee, and whether or not the motion passes, the Committee will take action with reference to it. He requested that Supervisor Moscone's suggestions be considered by the Committee at the time they hold a hearing on the matter before them, and that the Supervisor's comments be incorporated in a letter and referred to the Streets Committee for this purpose.

No objection and request *granted*.

Motion *adopted* by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, Ferdon, McCarthy, Morrison, Tinney—8.

No: Supervisor Moscone—1.

Absent: Supervisors McMahon, Tamaras—2.

Request Granted.

Supervisor Morrison stated that Supervisor Blake had informed him that he would make a presentation to the State Highway Commission at its meeting on May 21, and he, therefore, withdrew his request for a letter to the Director of Planning in the form he asked before. Instead, he asked that the Director of Planning be requested to attend with Supervisor Blake, the Board's representative, and assist him by filling in any technical information necessary for his presentation.

No objection and request *granted*.

RECESS.

At the hour of 5:40 p.m., the Chair announced that the Board would recess for five minutes.

The Board resumed its meeting at 5:45 p.m.

Taken Up Out of Order.

Adopted.

There being no objection, at the request of Supervisor Boas, the following from Finance Committee without recommendation, appearing on the calendar under New Business, was taken up out of order:

(Supervisor Morrison dissenting from Committee Action.)

Authorizing acceptance of gift of \$10,840 from Mrs. Henriette de Sassure Lehman for use in the Family Planning Program at San Francisco General Hospital.

File No. 245-64, Resolution No. 273-64.

Supervisor Tinney stated that the Committee heard from proponents of acceptance of the subject gift, but no opponents to acceptance appeared at their meeting. He pointed out that the matter before the Board is apparently not an issue of religion, morals or government participation, as the evidence produced for the Committee indicated that this type of service has been given in a casual way at the San Francisco General Hospital for approximately the past three years, the necessary materials and preparations having been contributed by various drug suppliers who distribute or manufacture them.

Supervisor Tinney repeated the conditions specified for acceptance of the gift, and explained that because of his personal faith and beliefs; because he does not believe that government should participate in a program which will reach only a small percentage of the community which is interested in family planning (which group could be reached by the casual service available now), and because he knows if this gift is accepted, the program is going to be expanded and additional personnel, department and facilities will be required in the future, he would vote against acceptance.

Motion to Amend.

Supervisor McCarthy, seconded by Supervisor Casey, moved that the following stipulations be incorporated into the subject resolution, as a condition for acceptance of the gift:

(1) No aggressive use of governmental authority to impose even subtly a preference for one method of birth control as against any other method shall be permitted;

(2) The program administered by the San Francisco Public Health Department, or any City agency, must be completely voluntary, and participation in any form of family planning shall not be a condition for receiving financial assistance or medical services under any Federal, State, or local government social welfare or public health programs;

(3) All methods of birth control must be fully detailed in printed materials disseminated to those seeking advice on family planning, and the same alternative methods must, with equal emphasis, be presented in any personal counseling given to potential recipients of aid under the program;

(4) Any City agency staff person directly administering this program may, on the grounds of religious convictions, be excused from participating in any part of the program conflicting with his or her conscience;

(5) The program, as is the case now, will not apply to unmarried, childless women.

Supervisor Morrison inquired if the expressed conditions were acceptable to Dr. Ellis D. Sox, Director of Public Health, and Supervisor Tinney stated that Dr. Sox voluntarily stated affirmatively that each and every one of these conditions would be met. Dr. Sox, who was present, verified this statement.

Motion to amend *carried* by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ferdon, McCarthy, Morrison, Moscone, Tinney—8.

No: Supervisor Ertola—1.

Absent: Supervisors McMahon, Tamaras—2.

Request Granted.

Supervisor Ferdon stated that acceptance of the gift was not offending his conscience, but he was opposed to a strong program being instituted without need being proved. He indicated that he would subject the validity of his objections to review at the conclusion of the expenditure of these funds and program. For this purpose he requested that the Director of Public Health be asked to submit a full and complete report to the Board of Supervisors on this subject every three or four months during the ensuing year, and with that understanding, Supervisor Ferdon stated he would vote for acceptance of the gift with the stipulations outlined by Supervisor McCarthy.

No objection and request *granted*.

Resolution, as amended, *adopted* by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, Ferdon, McCarthy, Morrison, Moscone—8.

No: Supervisor Tinney—1.

Absent: Supervisors McMahon, Tamaras—2.

Taken Up Out of Order.

Supervisor McCarthy, seconded by Supervisor Blake, moved that consideration be continued for two weeks.

Whole for the purpose of hearing testimony on the following matters and that said Committee consider first the matter of proposed Traffic Code amendment and, second, appropriation of the balance of Off-Street Parking Fund:

Amending the Administrative Code relating to leasing of land for off-street parking facilities, to specify that the administration of such leases, and the operation, maintenance, repair and management of said facilities shall be under the jurisdiction and supervision of the Director of Property.

Supervisor Moscone stated that he was opposed to legislation which places in the hands of the Board of Supervisors a prerogative which he feels properly belongs in the Courts, and that he would like to have a repudiation of such subject applications and thus force claimants to appear before the proper tribunals.

Supervisor Tinney stated in this connection that according to the Government Code such claimants must first come to the Board of Supervisors and then appeal to the Courts. He indicated that he did not believe it is proper or incumbent on Boards of Supervisors to make determinations as to whether or not there was excusable conduct on the part of such plaintiffs.

Further, there would be clarification of the wording which indicates there is a floor area ratio of 3 to 1 for the garage, and removal of confusing language relative to commercial structures over the garage. There would also be clarification of the requirements relative to responsibility for accessways from the street to the garage structure and from the interior thereof, as well as changes in certain set-back provisions in adjacent areas. There would be a provision which would regard the issuance of a building permit as evidence that the garage and roof met Building Code requirements for places of public assemblage. Mr. Herman called upon Mr. Charles Bassett of the firm of Skidmore, Owings and Merrill to illustrate the proposed changes with the aid of a scale model of the proposed garage and Alcoa Building structures. Statements on the proposed changes were also presented by the following: Roland J. Henning, Deputy City Attorney; Henry Davis, Counsel for the Redevelopment Agency; Allan R. Carpenter, Executive Director, Perini-San Francisco Associates; George Keeler, Attorney for Perini-San Francisco Associates; John Busterud, Attorney for the Golden Gate Parking Corporation (non-profit garage).

Supervisor Tinney Excused From Attendance.

At the hour of 3:30 p.m., Supervisor Tinney requested permission to be temporarily excused from attendance due to a prior commitment.

No objection and permission *granted*.

Requests Granted.

Supervisor McCarthy requested that the Clerk be directed to write a letter to the Assessor asking for an estimate of what amount of possessory interest taxes would be levied on the non-profit garage planned for Redevelopment Area E-1.

No objection and Clerk *directed to comply*.

Supervisor Blake requested that the Clerk be directed to write a letter to the Assessor asking for an estimate of the taxable value of the land on which the Alcoa Building would be erected and the amount of taxes on the building itself, and further, what the difference in taxes would be if the plan remained as presently constituted, with the garage remaining in the hands of the City and the building occupying the air space above it, as compared to the proposed

change with the building occupying land to which the Company would secure fee title.

No objection and *Clerk directed to comply.*

The Chair inquired if there were anyone in attendance who wished to be heard either in favor of or in opposition to the proposed change under discussion. No response was had to two such inquiries, and thereupon the Chair declared this phase of the public hearing concluded.

Thereupon, hearing was commenced of the phase of the proposed plan change related to the Ferry Park expansion and Washington Street widening.

Mr. M. Justin Herman, Executive Director of the Redevelopment Agency, explained that this proposed change would include within the official Redevelopment Plan the areas presently occupied by the Ferry Building Annex Post Office and one small remaining produce building. He stated if the revision were adopted it would be necessary to come before the Board later with a proposed amendatory application for the financing of the treatment of this area to permit its use for park purposes and for the widening of Washington and Drumm Streets.

The Chair inquired if there were anyone in attendance who wished to be heard in connection with the proposed change, and the privilege of the floor was granted to the following: 1) Mr. Charles H. Kaplan, owner of the Ferry Post Office building, who stated that he was willing to cooperate to the fullest extent possible, and was desirous of having a determination of the entire matter made as soon as possible; 2) Mr. Robert Breher, Attorney for the owner of the produce building in question, who stated that his client concurred with Mr. Kaplan's request for an early settlement of the proposed acquisition of the subject property.

There being no response to two further inquiries as to whether or not anyone else wished to be heard, the Chair declared the public hearing concluded.

Supervisors either vote to hear the Human Rights Commission ordinance as a Committee of the Whole, or return it to Committee for further hearing.

Supervisor Tinney moved that the Board resolve itself into a Committee of the Whole to consider the subject legislation.

Supervisor McCarthy objected to the motion on the grounds that prolonged hearings had been held by the Public Health and Welfare Committee, and conscientious efforts were made at all times to keep interested persons informed of the nature and scope of all amendments made to the original ordinance by the Committee.

Motion failed due to lack of unanimous consent. Communication to be answered by the President.

Motion to Amend.

Supervisor McMahon, seconded by Supervisor Tinney, moved that the following amendment be made to the legislation:

Sec. 12A.4(b), pg. 3, line 6 of Subsection(b) - Delete "The position of Executive Secretary to the Commission and such professional staff persons as may be authorized shall be exempted from the residency and electoral requirements of Section 16.98 of the San Francisco Administrative Code."

Explanation of Vote.

Supervisor McMahon stated she felt there were residents of San Francisco who could qualify for the position of Executive Secretary, and it would be better for all concerned for the person who took it to be someone who had been living here and was familiar with the local situation, because the people would have more confidence in such an individual. She indicated that she understood the present occupant of the similar position in the Interim Committee was a resident of San Francisco and his candidacy would not be affected by such a change in the language of the legislation.

Supervisor Tinney stated that his support of the motion was based on his opposition to inclusion of exemption of residence qualifications in any ordinance, although in case of proven necessity he might be willing to waive such qualifications for a specific position.

Supervisor Ferdon stated that he supported the proposed amendment because inclusion of such language would prevent this and future Boards of Supervisors from having anything to say about subsequent occupants of the position in question.

Supervisor Tamaras stated he was in favor of the amendment because he felt the individual who occupied such an important position should have a definite interest in the life of San Francisco and he believed sufficient local talent was available to fill it.

Motion failed to carry by the following vote:

Ayes: Supervisors Ferdon, McMahon, Tamaras, Tinney—4.

Noes: Supervisors Blake, Boas, Ertola, McCarthy, Morrison, Moscone—6.

Absent: Supervisor Casey—1.

Motion to Amend.

Supervisor McMahon moved that the following amendment be made to the legislation:

Sec. 12.A.5(a), pg. 4, line 7 - After word "inquiry.", delete "." and add the following ", and/or the production of any papers, documents, or records under his control which are relevant and reasonably necessary to its activities."

Motion *failed* for lack of a second.

Thereupon, Supervisor Moscone stated that he would second the motion if Supervisor McMahon wished to make it again. He indicated that he was prepared to second the motion on its initial presentation but refrained from doing so because it had appeared to him that another Supervisor was rising with this intention when the President's gavel was struck.

Supervisor McMahon repeated her motion, and it was seconded by Supervisor Moscone.

Supervisor McCarthy stated that the Public Health and Welfare Committee was planning to present an amendment to clarify the section in question, and seconded by Supervisor Blake, moved that consideration of Supervisor McMahon's motion be temporarily postponed until a copy of the Committee's proposal could be obtained for her and any other members who had not been furnished a copy thereof.

No objection, and motion *carried*.

Motion to Amend.

Supervisor Morrison, seconded by Supervisor McCarthy, moved the following amendment to the title of the subject legislation:

Line 5 - After word "Providing", delete "penalties" and substitute "procedures"; after word "the", delete "violation" and substitute "enforcement."

Motion *carried* by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Motion to Amend.

Supervisor Tinney, seconded by Supervisor Morrison, moved that

for accuracy the preceding motion amending the title of the legislation be amended to include the following:

Line 5 - After word "for", delete "the"; after word "enforcement" delete "thereof".

Motion carried by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Motion Defeated.

Thereupon the Board resumed consideration of the motion previously made by Supervisor McMahon, seconded by Supervisor Moscone, and temporarily postponed, which would add certain language to Sec. 12A.5.(a).

Explanation of Vote.

Supervisor McMahon stated she felt that to do an effective job the Commission should have the power to subpoena documents as well as individuals in matters of discrimination, as well as in cases of unfair neighborhood practices.

Supervisor Tinney stated he believed this would be an unnecessary extension of the ordinance, and while he felt the subpoenaing of documents was justified in cases of investigation of unfair neighborhood practices he did not think it was necessary in other instances.

Supervisor Morrison stated he supported the amendment because he felt that by means of this subpoena power the Commission would be better fitted to do its work.

Supervisor Ferdon stated he was opposed to the subpoena power because he believed the desired objectives could be better achieved through a spirit of cooperation. He indicated that he felt this power should not be included, but they should wait until experience with the law revealed whether or not it was necessary.

Supervisor Tamaras indicated that he concurred with Supervisor Ferdon's statement.

Supervisor McMahon, seconded by Supervisor Moscone, requested that in order to make the motion proper it be amended to include deletion of words "ad testificandum", following word "subpoena", pg. 4, line 3.

No objection and request *granted*.

Motion as amended, *failed to carry* by the following vote:

Ayes: Supervisors Boas, McMahon, Morrison, Moscone—4.

Noes: Supervisors Blake, Ertola, Ferdon, McCarthy, Tamaras, Tinney—6.

Absent: Supervisor Casey—1.

Motion to Amend.

Supervisor McCarthy, seconded by Supervisors Blake and Tamaras, moved the following amendments to correct clerical errors and provide clarification of certain language:

Sec. 12A.5.(a), pg. 4, line 2 - After word "this", change word "section" to "subsection". Sec. 12A.5.(a), pg. 4, line 7 - After word "inquiry", delete "."; add "; provided, however that any such inquiry involving any agency, board, or officer of the City and County shall be governed by the provisions of subsection (f) hereof."

Motion *carried* by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Sec. 12A.9.(c), pg. 8, line 7 of subsection - After words "City Attorney", delete the words "in cases arising under the provisions of Section 12A.9 hereof".

Motion *carried* by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Sec. 12A.4.(b), pg. 3, line 6 of subsection (b) - After word "Commission", delete the words "and such professional staff persons as may be authorized".

Motion *carried* by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Motion to Amend.

Supervisor Morrison, seconded by Supervisor Tinney, moved amendment by inclusion of a new section to be numbered Sec. 12A.16, reading as follows: "All meetings of the Commission and all proceedings under Section 12A.9(b) of this ordinance shall be public."

After discussion, Supervisor Tinney suggested that the motion be amended to provide that the following language be added to Section 12A.9(b), pg. 8, line 22, - "All proceedings under this subsection shall be public."; and that a new Section, to be numbered Section 12A.16, be added to read - "Sec. 12A.16. All meetings of the Commission shall be public."

Thereupon, Supervisor Morrison, with the consent of Supervisor

Tinney, withdrew his original motion, and, seconded by Supervisor Tinney, moved adoption of the suggested changed motion.

Motion carried by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

Thereupon the roll was called and the ordinance, as amended, was passed for second reading by the following vote:

Ayes: Supervisors Blake, Boas, Ertola, Ferdon, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Casey—1.

RECONVENING AS BOARD OF SUPERVISORS.

Taken Up Out of Order.

Consideration Continued.

There being no objection, at the request of Supervisor Morrison, the following recommendation of the Streets Committee, appearing on the Calendar under New Business, was taken up out of order.

Rejecting the recommendations of the City Planning and Recreation and Park Commissions for approval of the G-2, H-2, L-3 Route Alignment of the Panhandle Freeway.

File No. 66-62, Resolution No.

Supervisor Morrison, seconded by Supervisor Ertola, moved that consideration be continued to meeting of Monday, September 14, 1964.

Supervisor Morrison indicated that while he felt this freeway plan was the most enlightened yet presented for San Francisco, he requested a delay in voting thereon so that a determination might be made of how much housing could be developed over the underground portions of the proposed route and some of the exposed portions thereof; how low and moderate-cost housing could best be achieved in those regions; what relocation policy for displaced residents should be adopted; how displaced persons might be compensated; and to obtain a visual concept of what is intended by means of scale models of the freeway, which have been promised by the State Division of Highways.

Supervisor Blake rose to a point of order, stating he felt, as Chairman of the Streets Committee, he should have been permitted to explain the Committee's recommendation before the motion to postpone action was considered. The Chair ruled that the point of order was not well taken, and the motion was properly before the Board.

Supervisor Blake objected to the date which had been selected, stating that several of the Board members would not be in attendance at that time, and he believed action should be taken today while the full Board was present.

Thereupon, Supervisor Morrison, with the consent of Supervisor Ertola, amended his motion to specify September 14th, or the date of such subsequent meeting at which the full Board membership would be present.
12th.

Explanation of Vote.

Supervisors Blake and Boas stated they were opposed to the motion for postponement because they felt it was a strategic delaying action, not in the public interest; that none of the information sought would be of real value in reaching a determination on the route; and that sufficient data and information to enable the Board members to make a decision now, had been developed in the extensive hearings held on the proposal.

Supervisor Moscone stated that while he was strongly opposed to the Panhandle Freeway corridor, he did not subscribe to the philosophy that the Board should vote on such a matter just to get it over with, and while there was any possibility that some member would support the Panhandle Freeway because of an erroneous belief that more low and moderate-income housing would result from selection of this route, he would be willing to support the motion to delay the vote for clarification of this point. After subsequent discussion, however, he announced that he would vote against the motion for delay.

Supervisor McMahon stated it was her understanding that the Streets Committee had been requested by the Chair to hold hearings as expeditiously as possible on this proposal because there were certain meetings scheduled by the State Highway Commission, and they wanted the Board of Supervisors' decision for consideration at those meetings. The Chair replied that this was correct, but assurance had been received that no action would be taken by the Commission until the end of September. Thereupon, Supervisor McMahon called attention to the fact that she had been granted a leave of absence, of long-standing, covering this period, and would not return until October 12th.

Request Granted.

Supervisor Moscone reiterated his previous request that the Departments of Public Works and City Planning investigate and report on the possibilities of adopting alternative freeway routes to those which have been proposed. He indicated that he refused to accept the position that any freeway connection between the Civic Center and the Golden Gate Bridge must either be the Panhandle Freeway or the Crosstown Tunnel. He requested that the Clerk be directed to write letters to the Departments concerned, asking that they undertake a full and complete study of all possible alternatives, including the Geary Street corridor, and in connection with the latter that a review be made of the possibility of constructing a freeway consisting of four lanes on the surface and four lanes in a tunnel, each carrying one-way traffic.

Explanation of Vote.

Supervisor McCarthy stated that he was opposed to the Panhandle Freeway, and was going to vote against it whether or not the vote was taken today. However, he indicated that he would support the motion to delay action, based on the normal courtesy extended to any member of the Board who makes a reasonable request for further information before making a decision.

Supervisor Casey stated that he had intended to support the motion for delay as a courtesy to a colleague, but inasmuch as it appeared that more than just a courtesy was involved he would withdraw his support of the motion and was prepared to vote against the Panhandle Freeway.

Supervisor Tamaras stated that he would vote for the delay because he felt it was extremely important that the Board have the benefit of a visual interpretation of the effect of this freeway and its connections, and this could be best provided by the scale models to be constructed by the State Division of Highways.

Motion carried by the following vote:

Ayes: Supervisors Ertola, Ferdon, McCarthy, Morrison, Tamaras, Tinney—6.

Noes: Supervisors Blake, Boas, Casey, McMahon, Moscone—5.

Taken Up Out of Order.**Referred to Committee.**

There being no objection, at the request of Supervisor Morrison, the following called out of Joint Finance and Public Buildings, Lands and City Planning Committee by Supervisor Blake, and appearing on the Calendar under Unfinished Business, was taken up out of order:

Approving, with qualifications, the terms and conditions of offer of City of San Francisco Ellis-O'Farrell Parking Corporation to acquire and transfer by gift to City and County of San Francisco title to Ellis-O'Farrell Garage.

File No. 438-63-1, Resolution No.

Supervisor Blake, seconded by Supervisor Casey, moved adoption.

Supervisors Blake and Casey stated they felt it was necessary to retain the subject garage because of a definite need for parking facilities to accommodate the many department stores and office buildings in the area. They indicated that they believed it could be operated successfully by a non-profit corporation, in the same manner as the Fifth and Mission and Sutter-Stockton Garages.

Supervisor Morrison, seconded by Supervisor McCarthy, moved re-reference to the Joint Finance and Public Buildings, Lands and City Planning Committee for further study of basic considerations related to the non-profit garage program.

Explanation of Second.

Supervisor McCarthy stated that a certain legal relationship of a colleague in his law office had caused him to seek the City Attorney's opinion as to whether or not a conflict of interest would exist if he were to vote on this measure. He indicated that the City Attorney's analysis of the circumstances resulted in an opinion that no conflict of interest existed, and he could participate in the Board's action on the matter.

Motion *carried* by the following vote:

Ayes: Supervisors Ertola, Ferdon, McCarthy, Morrison, Moscone, Tamaras, Tinney—7.

Noes: Supervisors Blake, Boas, Casey, McMahon—4.

Supervisor Boas Excused.

No objection and request *granted*.

The Board resumed consideration of the calendar items in the order set forth therein.

File No. 146-64, Ordinance No.

(Jackson Square—65 feet; Civic Center, variable from 70 to 120 feet; Union Square, variable from 105 to 190 feet.)

August 3, 1964—Supervisor Tamaras, seconded by Supervisor McMahon, moved that the legislation be amended by deleting Sections 293, 293.1 and 293.2, relating to Union Square Variable Special Height District.

If said amendment is adopted, and the proposed ordinance is re-referred to the City Planning Commission for its approval or disapproval of said amendment, Supervisor Tamaras will thereupon move, "In the interim between now and the completion of the C-3 and Down Town studies, any application for a building permit for new construction within the Union Square area, in excess of height limits as proposed in File No. 146-64, be referred to the City Planning Commission for its discretionary review."

Explanation of Vote.

Hearing Held.**SPECIAL ORDER—2:00 P.M.**

Presentation of reports by representatives of Bay Area Rapid Transit District, the Mayor's Transportation Council and the Market Street Coordinating Committee on the status of the rapid transit program as it pertains to San Francisco, with specific reference to the Market Street downtown area.

File No. 297-61.

Mr. Adrien J. Falk, President, Board of Directors of the San Francisco Bay Area Rapid Transit District, briefly reviewed the background of the formation of the District, its purposes, and the current status of plans for construction of the rapid transit system. He introduced Mr. Winfield Salter, Engineering Consultant to the District, who presented a description of the entire contemplated system.

Mrs. Charles B. Porter, President of the City Planning Commission, and Chairman of the Mayor's Transportation Council, described the function of the Transportation Council as being that of coordinating policy decisions between the several Commissions and offices under the Chief Administrative Officer, who are responsible for one or another phase of transportation planning. Mrs. Porter called upon Mr. James R. McCarthy, Director of Planning, and Chairman of the Transportation Technical Committee, to report on activities pertaining to the rapid transit system.

Mr. McCarthy reported on the operation of the Transportation Technical Committee, and, in turn, introduced Mr. S. Myron Tatarian, Director of Public Works, and Chairman of the Market Street Coordinating Committee, who outlined the purposes for which this Committee was organized.

At the conclusion of these presentations, the Board members addressed questions to representatives of the Bay Area Rapid Transit District, Mr. Adrien E. Falk, Mr. Winfield Salter and Mr. Leslie Irvin, and to the City staff.

Supervisor McCarthy requested that BARTD representatives submit figures on estimates of costs of relocation of utilities under Market Street to permit construction of the local transit subway immediately below the surface of the street, so that the system could be designed to eliminate the proposed pedestrian mezzanines and more open space along the route could be provided. The Supervisor submitted this same question to City departmental representatives, and requested that they, too, report on his subject, with particular reference to what is involved in terms of expense and in terms of long-range advantage to San Francisco should this change in contemplated construction be made.

Request Granted.

Supervisor McCarthy requested that the Clerk be directed to write a letter to the Mayor's Transportation Council suggesting that briefing sessions with the Transportation Technical Committee and Market Street Coordinating Committee on developments in the entire project, be arranged for members of the Board of Supervisors, to be held at 1:00 p.m. on a Monday afternoon once each month.

No objection, and Clerk directed to comply.

Reference to Committee.

There being no further questions relative to rapid transit, the Chair announced the hearing thereon was concluded.

Requests Granted.

Supervisor Morrison requested that a report be submitted by the Assessor indicating whether or not in making assessment of St. Francis Square condominium properties, due consideration was given to the restrictive features of ownership therein, i.e., the fact that this is a non-profit cooperative and purchasers are prevented from speculation in the sale of their apartments; that it is presently adjacent to a run-down area which is slated for redevelopment; and

that permitted land coverage and density are considerably less than that permitted in a conventional R-3 zoned district.

Assessor Russell L. Wolden, who was present, indicated that such a report would be submitted.

Supervisor McMahon requested that a report be submitted by the Assessor as to the assessed valuation of other properties immediately adjoining St. Francis Square, with specific reference to the land valuation of the property on which the convalescent home on Ellis Street, adjacent to the property in question, is located. The Assessor indicated that this information would be contained in his report.

The Chair requested that the Director of Property submit his report on these same subjects.

The Director of Property stated that he was not prepared to report on this matter and requested that consideration of the application be continued for one week.

Supervisor Ertola, seconded by Supervisor Tamaras, moved continuation for one week.

Dick Adams, Attorney at Law, representing applicant, was examined under oath as to the value of the property. Representatives of the Assessor and Director of Property presented their reports in answer to questions submitted by Board members at their last hearing on the matter. The Assessor recommended no reduction of assessment, and the Chair indicated that the Director of Property stated that because of the character of the development he felt determination of the assessment should be left in the hands of the Board to be decided as a policy matter.

Panhandle-Park Freeway.

Supervisor Casey stated his further study and investigation of the proposed Panhandle-Park Freeway has revealed that many exaggerated statements have been made concerning it; and far from being injured, Golden Gate Park will be benefited, because the project will result in the development of a portion thereof which is unused at present, as well as extension of the Panhandle. He indicated he felt, too, that further benefit to the City will be derived from study of the questions concerning housing the freeway area, which were propounded by Supervisor Morrison at the last hearing on the subject. He declared that while he was originally inclined to oppose anything that would interfere with the Park, he could find no substance to the report that it will be destroyed by this project, and consequently has completely changed his outlook on the matter.

Supervisor Tinney, seconded by Supervisor Tamaras, moved that the Board fix Monday, September 14, 1964, at the hour of 3:00 p.m., in the Chambers as the time and place for the public hearing in connection with the proposed abandonment and discontinuance of service on portions of Municipal Railway Motor Coach Lines Nos. 17 and 26.

SPECIAL ORDER—2:00 P. M.

Public hearing for consideration and action on the proposed redevelopment plan for the Western Addition Approved Redevelopment Project Area A-2.

File No. 96-61

The Chair directed that the hearing proceed in the following order:

1. Presentation by the Redevelopment Agency of evidence, testimony, statements and arguments in favor of adoption of the Redevelopment Plan.
2. Presentation by all organizations and persons, excepting the Agency, of evidence, testimony, statements and arguments in favor of adoption of the Redevelopment Plan.
3. The Redevelopment Agency and each witness in favor of adoption of the Redevelopment Plan to be questioned or cross-examined, under oath if at all, at the conclusion of all of the presentations favoring adoption.
4. Presentation by all organizations and persons of evidence, testimony, statements and arguments opposing adoption of the Redevelopment Plan.
5. Each witness opposing adoption of the Redevelopment Plan to be questioned or cross-examined under oath at the conclusion of all of the presentations opposing adoption.
6. Presentation of concluding arguments, if any, favoring adoption of the Redevelopment Plan.
7. Presentation of concluding arguments, if any, opposing adoption of the Redevelopment Plan.

Evander C. Smith, Attorney, 333 Franklin Street, representing N.A.A.C.P. Housing Committee, objected to the present hearing on the ground that the public hearings before the Redevelopment Agency were convened at a place other than that given in the notice of public hearing and that, therefore, this matter is not properly introduced before the Board at this time.

M. Justin Herman, Executive Director of the Redevelopment Agency, explained that the hearing before the Redevelopment Agency was a properly advertised hearing pursuant to State law. The hearing was begun in the Chambers of the Board of Supervisors, as advertised in the notice of public hearing, and was then recessed to Nourse auditorium. Mr. Herman continued that the Agency's counsel advised that this is a proper procedure.

Mr. Smith's objection was taken under consideration by the Chair and *denied*.

Everett Griffin, Chairman of the San Francisco Redevelopment Agency, addressed the Board as follows:

"Mr. President and Members of the Board, on behalf of the San Francisco Redevelopment Agency I would like to start our presentation of the proposed plan for Western Addition Area 2.

"After the Agency's own public hearing on three successive days and changes made as a result of the hearing, we are now at the stage when we can say to you that we have worked very hard to prepare a good plan—one that is best for the residents, property owners, businesses, schools, trafficways. We have worked with the residents, organizations, the churches, and civic groups to give them the best possible advantages in this plan. We have recognized housing needs, business needs, social needs, tax needs.

"We have worked with various City Departments to accommodate and reconcile their different interests.

"We have created a rehousing program of such range and quality that it has already attracted the commendation of those who were

skeptical at the outset that even a minimum rehousing program, to say nothing of the greatest private, socially oriented housing program could be organized.

"We have set out to preserve for the first time in this project a substantial proportion of the structures rather than remove them.

"We have supported the Mayor in programs that cannot be conducted as project matters but must be of City-wide scope.

"No one will be moved until adequate and satisfactory housing is available which, at the request of Mayor Shelley, can take up to five years if necessary. No industry or business will be moved until adequate facilities are offered as replacement.

"Just moving people and businesses is not enough. When a household or a business is relocated and reestablished, the move should represent an advancement. A wide range of aids and services will be employed by the Agency, working with the people of A-2, for this purpose.

"It is therefore with confidence that we recommend this plan to you, believing that it would indeed be difficult to create one that offers greater benefits for all immediately affected."

Mr. Herman then reviewed the redevelopment plan for Western Addition Project Area A-2 as presented by the Agency and as contained in the files of the Clerk's Office, along with slide pictures of the area in question.

Mr. Herman further stated that the members of the Redevelopment Agency would meet the following day to consider a policy statement which would provide that there would be no forced removal of residents for a period of four years, that residents would be offered at least two alternate sites for relocation, and that owner participation will be encouraged. The Agency hopes there will be established a development corporation set up to provide special aids to industries which must move and expand.

Evander Smith, Attorney, objected on the ground that these matters are not directed to the project plan before the Board.

The objection was taken under submission by the Chair and *denied*.

Mr. Herman continued his presentation of the redevelopment plan. He summarized and presented for the file a statement showing the major additional State and Federal aids available to families who must move, which have been put into effect since the relocation of residents of Western Addition Project Area A-1 during 1958-1960.

At the conclusion of Mr. Herman's presentation, Mr. Smith requested that he be allowed to cross-examine Mr. Herman at this point. The Chair denied the request without prejudice to his right to cross-examine at the conclusion of testimony by all proponents.

Lawrence R. Palacios, Commissioner, Redevelopment Agency, spoke in favor of adoption of the subject plan.

Irwin Mussen, for his Honor, Mayor John F. Shelley, requested approval of this plan, which the Mayor considers a part of his comprehensive program to fill the housing needs of the people of San Francisco.

Everett Griffin offered the slides shown during the presentation of the redevelopment plan for inclusion in the official Board records.

James R. McCarthy, Director of City Planning, informed the Board of the City Planning Commission's approval of the redevelopment plan for Western Addition Area A-2 as being in conformity with the Master Plan, and the Commission's recommendations in connection with its implementation, as contained in the Commission's Resolution 5813, adopted August 13, 1964.

The following then spoke in favor of the proposed plan:

Richard Phenix, 1317 Sacramento Street.
Harry Johns, Real Estate Broker, 322 Hayes Street.
James E. Stratten, Executive Director, Booker T. Washington Center, 800 Presidio Avenue.
Harry L. Stuver, 358 Frederick Street.
Matthew J. Boxer, San Francisco Council of District Merchants Association, 1610 Ellis Street.
I. Tojasaki, Chairman, United Committee for Japanese, 1734 Post Street.
Masao Osigama, Nihamachi Development Corporation, 1698 Post Street.
Joseph Debro, 5462 Greenridge Road, Castro Valley, owner of property in the area.
Robert Lilienthal, United Community Fund, 1 Spruce Street.
Mortimer Fleishhacker, President, S. F. Planning and Urban Renewal Association, 2600 Pacific Avenue.
Stephen M. Heller, Director, American Institute of Architects, 843 Montgomery Street.
Frank Pearce, property owner, 1346 Divisadero Street.

At this point the Chair reminded persons testifying that they must hold themselves in readiness for questioning or cross-examination; that if they do not, it is within the Board's province to disregard their testimony or to limit the weight of the testimony given.

Thereupon, testimony was given by the following proponents:

Alfred E. Weiler, Attorney, 220 Bush Street.
Charles Buchwald, J & R Realty Corporation, owners of property in the area, 855 McAllister.
Alan S. Maremont, 2835 Washington Street.
James B. Shilly, Council for Civic Unity.

There being no one else present wishing to speak in favor of adoption of the redevelopment plan, the Chair called first for any questions by members of the Board.

In response to questions, Mr. Herman stated that in the judgment of staff and counsel, the approval by the electorate of State Ballot Proposition 14, an initiative measure which would repeal the Fair Housing Law, would certainly suspend the entering into a contract between the Federal Government and the Agency and the execution of this redevelopment plan. If the plan is approved by the Board of Supervisors, the Agency would make every attempt to have the contract with the Federal Government executed before the election on November 3, 1964.

Roland J. Henning, Deputy City Attorney, stated further that Robert C. Weaver, Housing Administrator, Housing and Home Finance Agency, has informed them that he is doubtful whether approval of Proposition 14 could release local contracting agencies from their existing contractual obligations. Mr. Herman added that if the Board adopts this redevelopment plan, it can expect that it will be approved and financed by the Federal Government. The Federal Government prefers to have five weeks in which to process and execute such contracts, but Mr. Herman has been advised that

it can be done within not less than four weeks—definitely not less than three.

The following persons then directed questions to official agency representatives:

Evander Smith, Attorney for N.A.A.C.P. Housing Committee,
333 Franklin Street.
Gilbert L. Pope, A-2 Block Council.
Dr. Thomas Burbridge, 1696 Ninth Avenue.
Jerry Mandel, N.A.A.C.P., 2006 Sutter Street.
Lawrence Custus, Freedom House, 632 Redwood Street.
Edward Eichler, 66 Encina Avenue, Napa.
Chester A. Wright, Negro Student Association, S.F. State College, 120 Southern Heights.
Ed Mattox, owner of property in the area, 718 Forty-seventh Avenue.
Jesse L. Stamder, 912 Laguna Street.
Mrs. Richard Barnes, 1535 Buchanan Street (St. Francis Square).
Marjorie Colvin, social worker, 839 Broderick Street, No. 4.
Kenneth Simmons, A-2 Block Council, 1418 Milvia, Berkeley.
James B. Phillips, 432 Ivy Street.
Roland Finch, Freedom House, 966 Fallon Street, El Cerrito.
Owner of property at 715 McAllister Street.
Robert MacPhail, CORE, 1668 Page Street.

There being no one else present wishing to question proponents, the Chair then called for testimony from those opposed to adoption of the proposed redevelopment plan.

The following spoke in opposition:

Nathan Glazer, 1508 La Loma, Berkeley.
James B. Phillips, representing owners of property in Block 795, 432 Ivy Street.
Edward Eichler, 66 Encina Avenue, Napa.
Dr. C. J. Wellington, N.A.A.C.P., 2299 Sutter Street.

Joseph C. Rhine, Western Addition Committee for Better Schools, 1545 Geary Boulevard, No. 4.
Mrs. Richard Barnes, 1535 Buchanan, No. 1 (St. Francis Square).

Request Granted.

At this point, as a result of various complaints voiced about the quality of public schooling in the Western Addition, Supervisor Blake requested that the Clerk be directed to prepare a Charter amendment to provide that the members of the Board of Education be elected public officials rather than appointed. Supervisor Blake stated that he would introduce such a measure when it is prepared, for presentation to the electorate at the election next following November 3, 1964.

No objection; *Clerk directed to comply.*

Opponents continued to speak in the following order:

Gene Bernardi, United Freedom Movement, 1723 Parker Street.

Pleasant Carson, Jr., A-2 Block Club, 1315 Steiner Street.

File No. 38-60-1, Resolution No.

Supervisor Blake asked for immediate adoption as the California Toll Bridge Authority is meeting on October 2, 1964. At this meeting, San Francisco's stand on the subject should be presented.

Supervisor Morrison stated that he realized there was an urgency to passage, but there should be some explanation as to the routing of the proposed bridge.

Supervisor Blake asked that the discussion be put over to the end of the Board meeting to allow the Departments of Public Works and City Planning to gather their material and make a presentation.

Supervisor Blake presented:

File No. 6-64, Resolution No.

Supervisor Moscone suggested that the last paragraph of the proposed resolution be eliminated as possibly there might be some Charter violations in the provisions thereof.

Mr. Blanchard, Deputy City Attorney, stated that the proposed resolution is possibly a borderline violation of Section 22 of the Charter.

Referred to the City Attorney for redrafting to comply with Charter restrictions.

Reference to Committee.

Supervisor Boas spoke on the South of Market Redevelopment Area and ways and means to rejuvenate the area with particular emphasis on the center portion of about 86 acres. This would be an area of office buildings, shops and restaurants. Also, there should be a cultural and convention center composed of theaters, sports arena and convention facilities. This would create an economic boost to the area and bring much needed facilities to San Francisco.

To be able to have such a cultural and convention center would require some sound thinking as to how such centers are financed, are the present ones paying off and what effect they have on the cultural climate of the community.

With this thought in mind, Supervisor Boas asked that he, Mr. Harry D. Ross, Controller, and few leading private citizens be authorized to make a special survey trip to Minneapolis, Detroit and one or more of the following cities: New York, Chicago or Philadelphia. By surveying the centers in these various cities, questions can be

answered that will assure the success of such a proposed cultural and convention center.

Referred to Rules Committee.

Request for Suggestions.

Supervisor Boas asked the various Board members for suggestions that might be included in the itinerary as proposed in the above Reference to Committee.

Clerk to solicit the members of the Board.

Rescission of Motion.

At a meeting of the Board on Monday, September 21, 1964, a motion was adopted that the Redevelopment Area A-2 public hearing be referred to the Planning and Development Committee for further public hearings. The Board was informed by Mr. Thomas Blanchard, Deputy City Attorney, that according to State law such public hearings must be heard by the full Board and not in a committee meeting.

JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

MONDAY, OCTOBER 5, 1964—2:00 P. M.

In meeting of the Board of Supervisors, San Francisco, Monday October 5, 1964—2:00 p.m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The roll was called and the following Supervisors were noted present:

Supervisors Blake, Boas, Casey, Ertola, Francois, McCarthy, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor McMahon—1.

Quorum present.

President Joseph E. Tinney presiding.

Supervisor McMahon excused from attendance. (On official leave of absence.)

Approval of Journals.

There being no objection, the Journals of Proceedings for the meetings of Tuesday, September 8, and Monday, September 14, 1964, were considered read and approved.

Hearing Concluded.

SPECIAL ORDER—2:00 P. M.

Public hearing for consideration and action on the proposed redevelopment plan for the Western Addition Approved Redevelopment Project Area A-2.

File No. 96-61

The Chair announced that hearing of testimony of all interested persons having been concluded at the Board meeting of September 21, 1964, the Board would proceed with its hearing of rebuttal arguments, and for this purpose ruled that one-half hour would be allowed to the Redevelopment Agency and a like period to opponents of the proposed plan.

It was noted by the Chair that all persons who testified would be placed under oath at this hearing, unless this had already been done at the prior session.

Mr. M. Justin Herman, Executive Director of the Redevelopment Agency, expressed the regrets of Mr. Everett Griffin, Chairman of the Agency, for his inability to be present due to illness, and indicated that Mr. Griffin had authorized him to speak in his behalf at this meeting. Mr. Herman stated that inasmuch as so many of the items

questioned by the opposition had already been answered or were in the record, the Agency staff waived the opportunity for rebuttal and made itself available for questions by members of the Board.

The Chair inquired whether anyone else were present who wished to offer rebuttal statements.

Mr. Evander C. Smith, Attorney, representing the N.A.A.C.P., stated that that group would have a revised statement to read as a major rebuttal, but first wished to direct certain remarks to the proceedings themselves, questioning whether they might properly continue at the present time because it had been alleged that contrary to the provisions of the Health and Safety Code certain members of the Board had had private meetings with citizens on the subject matter thereof.

The Chair stated that, having been so instructed by their counsel, the City Attorney, the Board members were aware that they were sitting in a quasi-judicial capacity and only that evidence produced under sworn testimony and cross-examination might be considered by them. Thereupon, in view of that statement, he asked if there was any member of the Board who wished to come forward and make any additional statements. Receiving no response, he invited counsel for the N.A.A.C.P. to proceed. Mr. Evander C. Smith called upon Mr. Kenneth Simmons, who testified that he had had conversations with some of the Board members on the subject of Western Addition Redevelopment Area A-2, subsequent to the last Board session on the subject. At the conclusion of Mr. Simmons' statement the Chair ruled that the proceedings would continue, inasmuch as no significant evidence had been produced beyond a statement that some of the Board members had respectfully listened to Mr. Simmons' comments.

The Chair invited Mr. Evander C. Smith to proceed with his surrebuttal presentation, and he, in turn, called upon Mrs. Joye Goodwin, N.A.A.C.P. Housing Committee representative, to read a prepared statement containing that group's suggestions for action by the City to mitigate their opposition to the present plan. Following Mrs. Goodwin's presentation Mr. Smith stated that this concluded the surrebuttal by the N.A.A.C.P., and there being no other persons expressing a desire for further surrebuttal, the Chair declared that this phase of the proceeding was completed.

Subsequently the Supervisors further questioned Mr. M. Justin Herman on various aspects of the proposed plan and cross-examined the following witnesses on the testimony they had offered: Mr. Kenneth Simmons, Mr. Edward Eichler, Mrs. Joye Goodwin, Mr. Irwin Mussen.

Supervisor Moscone Excused from Attendance.

At the hour of 4:00 p.m., Supervisor Moscone was excused from attendance by the President so that he might rush to the hospital where his wife was expecting the birth of a child at any moment.

Taken Up Out of Order.

Called Out of Committee.

Supervisor Morrison asked permission to direct, out of order, that the following matter be called out of the Planning and Development Committee and calendared by the Clerk for consideration at the next Board meeting:

Requesting Mayor to consider submission of a supplemental budget request to be appropriated to Redevelopment Agency Revolving Fund for supplemental rental payments on behalf of families and single persons displaced by public action.

File No. 240-64, Resolution No.

Clerk directed to comply.

RECESS.

At the hour of 5:00 p.m., the Chair announced a ten-minute recess, and at the conclusion thereof consideration of subject plan for Western Addition Redevelopment Area Project A-2 was resumed.

The Supervisors continued their interrogation of Mr. M. Justin Herman as to the various aspects of the proposed plan, and at the conclusion thereof the Chair invited proponents and opponents to make any closing statements they so desired. Mr. Herman waived the opportunity to make such a statement on behalf of the proponent Redevelopment Agency. Closing statements in opposition were made by the following persons: Mr. Evander C. Smith, Mr. Pleasant Carson, Mrs. Charles Fowler, Mrs. Helen Lemans, Mr. Gilbert L. Pope, Mr. Jesse Stamder, Mr. Henderson Houston, Mr. Kenneth Simmons and Mr. Aaron Chapman.

Thereupon, the Chair announced that the rebuttal phase of the proceeding was concluded and the matter was now before the Board for action.

Passage for Second Reading.

The following, by order of the Board, was taken up:

Approving redevelopment plan for the Western Addition Approved Redevelopment Project Area A-2, and designating same as the official redevelopment plan for said Project Area.

File No. 96-61-8, Ordinance No.

Supervisor Morrison, seconded by Supervisor Francois, moved passage for second reading.

Prior to voting on the motion, further discussion produced the information from the Agency staff that statements on policy to be followed in execution of the plan could be incorporated in the related Cooperation Agreement to be executed by the Agency and the City. It was determined that after action was had on the motion to approve the plan, the Board members would introduce resolutions pertinent to establishment of such policy for action today, and consideration and endorsement by the Agency for incorporation in the Cooperation Agreement prior to the next Board meeting, at which final passage of approval of the plan would be before the Board.

Passed for second reading by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, Francois, McCarthy, Morrison, Tamaras, Tinney—9.

Absent: Supervisors McMahon, Moscone—2.

UNFINISHED BUSINESS.

Final Passage.

The following recommendation of Finance Committee, heretofore considered, was taken up:

Authorizing purchase of certain property from D. W. McNickle, et ux., for \$17,500; required for Bosworth Street widening, and authorizing dismissal of condemnation proceedings.

File No. 140-64-15, Ordinance No. 276-64.

Finally passed by the following vote:

Ayes: Supervisors Blake, Boas, Casey, Ertola, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Francois—1.

Taken Up Out of Order.

Adopted.

There being no objection, on motion of Supervisor Blake, seconded by Supervisor Moscone, the following recommendation of Streets

Committee, appearing on the calendar under Unfinished Business, was taken up out of order:

Rejecting the recommendations of the City Planning and Recreation and Park Commissions approving the G-2, H-2, L-3 Route Alignment of the Panhandle Freeway.

File No. 66-62-1, Resolution No. 634-64.

Supervisor Blake reminded the Board members that the subject resolution was before them with a unanimous recommendation of the Streets Committee, and that consideration had been continued from August 10th so that models of the proposed freeway could be constructed and answers obtained to certain questions presented by Board members. He offered for the record additional petitions from organizations and individuals which had been sent to him protesting adoption of the freeway proposal. He urged adoption of the subject resolution and that further more realistic study be given to the Cross-town Tunnel proposal, which is the City's official policy.

Supervisor Boas, stated that in supporting the Streets Committee recommendation he was not expressing opposition to freeways, per se, but he felt the proposed Panhandle Freeway did not answer San Francisco's need for channelization of north-south traffic.

Supervisor Francois stated that he was not "anti-freeway" and recognized the need for provision of means to facilitate movement of traffic through the City, but he was not convinced of the need for this particular freeway now. He indicated that he advocated construction of an under-water transit tube to facilitate mass transit commuting between San Francisco and Marin County, and was in favor of razing the ineffective present Embarcadero Freeway and the increased use of street traffic control devices to improve operations within the City. He further pointed out that the proposed Panhandle Freeway routing would displace 4,000 residents, and would compound existing problems with regard to middle-income housing and relocation of persons displaced from redevelopment areas.

Supervisor Morrison urged rejection of the resolution. He stated he felt the selection of the proposed corridor for construction of the freeway was overwhelmingly valid, and while he was not satisfied with everything in the plan he believed that after adoption of the route an acceptable design could be produced by the State Division of Highways. He indicated he believed every esthetic objection could be answered and the problem of rehousing displaced persons satisfactorily solved.

Adopted by the following vote:

Ayes: Supervisors Blake, Boas, Francois, McCarthy, McMahon, Moscone—6.

Noes: Supervisors Casey, Ertola, Morrison, Tamaras, Tinney—5.

Taken Up Out of Order.

Consideration Temporarily Postponed.

There being no objection, at the request of Supervisor Morrison, the following appearing on the calendar under Unfinished Business was taken up out of order:

By Order of the Board.

Approving redevelopment plan for Western Addition Approved Redevelopment Project Area A-2, and designating same as the official redevelopment plan for said Project Area.

File No. 96-61-8, Ordinance No.

Supervisor Moscone stated that while he had to leave the Board meeting before the vote was taken on the subject measure last week, he wished the record to reflect his strong support thereof and the resolutions appurtenant thereto, which were introduced and adopted at the last meeting of the Board.

Supervisor Boas, seconded by Supervisor Morrison, moved that consideration be temporarily postponed until after the Board considered the following recommendations of the Planning and Development Committee, appearing on the calendar under New Business.

No objection and motion *carried*.

Adopted.

Approving form of Co-operation Agreement between City and County and Redevelopment Agency, in connection with Western Addition Approved Redevelopment Project Area A-2 and authorizing execution thereof.

File No. 96-61-9, Resolution No. 598-64.

Supervisor Boas, Committee Chairman, reported that the Agency expressed its willingness to incorporate into the subject cooperation agreement the policy statements contained in the resolutions pertaining thereto adopted at the last Board meeting, but would prefer that the Board approve the original form of the agreement and then take further action to adopt a separate resolution approving a resolution adopted by the Agency, which contains affirmation of these policies. He explained the intent of this procedure was to preclude possible delay in processing of the cooperation agreement through affected Federal bureaus. Mr. M. Justin Herman was asked to comment, and he indicated that if the Board so desired a separate cooperation agreement, embodying such policy statements, could be drawn up and executed by the City and the Agency.

Supervisor McCarthy, seconded by Supervisor Boas, moved that the cooperation agreement be amended to include covenants set forth in a substitute form thereof, which he presented (File No. 96-61-16), on page 7 through 18 as Items 2, 4, 5, 6, 7 and 11, which would constitute incorporation of the policy recommendations under discussion.

Supervisor Ertola requested that Supervisor McCarthy add to his motion inclusion of provisions relative to creation of parks and open spaces in the area. He subsequently withdrew this request after Mr. Herman stated it was the Agency's intention to require in its marketing program that sponsors submit designs for provision of open space, but did not contemplate inclusion of public parks in the plan itself.

Supervisor Blake Excused from Attendance.

The Chair announced that Supervisor Blake had requested to be excused from attendance at the hour of 4:30 p. m., because of business reasons.

No objection and request *granted*.

Motion *failed* to carry by the following vote:

Ayes: Supervisors Boas, Francois, McCarthy, Morrison, Tinney—5.

Noes: Supervisors Casey, Ertola, McMahon, Moscone, Tamaras—5.

Absent: Supervisor Blake—1.

Thereupon, the roll was called and the proposed resolution was adopted by the following vote:

Ayes: Supervisors Boas, Casey, Ertola, Francois, McMahon, Morrison, Moscone, Tamaras, Tinney—9.

No: Supervisor McCarthy—1.

Absent: Supervisor Blake—1.

Adopted.

Supplemental Cooperation Agreement — Western Addition Project Area A-2.

Supervisor Francois, seconded by Supervisor Moscone, moved that the Redevelopment Agency, in collaboration with the City Attorney, be requested to draft a resolution for the Board's consideration at its next meeting, which would have the effect of approving a supplemental cooperation agreement between the City and County and the Agency encompassing policies set forth in the four resolutions relative to Western Addition Project Area A-2, which were adopted by the Board at its last meeting. In addition, at the request of Supervisor Ertola, the motion asked for inclusion of a policy statement that the Agency would prepare and present a plan to provide for development of land in the interior of blocks for parks, walkways and recreational areas, without having the adjective "public," contained in the description thereof.

In connection with the subject motion, Supervisor Francois asked that the City Attorney be requested to inform him prior to the next meeting whether adoption of a resolution relative to policy on parks, walkways and recreational area would have any effect on the contemplated supplemental agreement, particularly as it refers to negotiations with the Federal Government in connection with the project.

No objection and request *granted*.

Motion *carried* by the following vote:

Ayes: Supervisors Boas, Casey, Ertola, Francois, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

Absent: Supervisor Blake—1.

Absent: Supervisor Blake—1.

Approving policies established by Redevelopment Agency respecting execution of redevelopment plan for the Western Addition Approved Redevelopment Project Area A-2.

File No. 96-61-15, Resolution No. 601-64.

Supervisor McCarthy, seconded by Supervisor Boas, moved that subject resolution be tabled, inasmuch as action would be taken next week on the resolution to be drawn up containing these provisions in a supplemental cooperation agreement. After discussion, Supervisor Boas withdrew his second, and Supervisor Moscone stated he would second the motion.

Motion failed to carry by the following vote:

Ayes: Supervisors McCarthy, McMahon, Moscone—3.

Noes: Supervisors Boas, Casey, Ertola, Francois, Morrison, Tamaras, Tinney—7.

Market Street Planning Study.

Supervisor McCarthy reminded the members of a suggestion he had made several months ago that the Market Street Coordinating Committee and perhaps representatives of the Bay Area Rapid Transit District, appear periodically before the full Board or an appropriate Committee thereof to present progress reports on Market Street Planning. He renewed this suggestion, and requested that the Clerk be directed to invite the Market Street Task Force and representatives of the District to appear before the full Board or the Planning and Development Committee to present up-to-date reports on this subject.

The Chair, with the consent of Supervisors McCarthy and Boas, requested that the Clerk be directed to arrange for presentation of such reports to the full Board of Supervisors as a Special Order of Business at an early date after the first of December, by which time Supervisor Boas' eastern study tour in connection with South of Market Redevelopment would be completed, and the conclusions which pertain to Market Street, resulting from this study, would be evaluated.

Freeway Plans.

Supervisor McCarthy stated that he wished to clarify his position on the matter of freeway planning for San Francisco. He stated that he was fully cognizant of the need for federal and state assistance in the financing of design and construction of such freeways, and he does not believe that anything to the contrary has been stated by the Board of Supervisors. He indicated that while he realized that the obligation of the State Highway Commission is to the entire State he hoped that some of its rigid concepts of freeway design may be changed, so that San Francisco can be given an opportunity to consider the merits of some alternate forms of traffic arteries for this city.

The following recommendation of Health and Welfare Committee, heretofore considered and temporarily postponed, was taken up:

Enacting a revised Fire Code for the City and County of San Francisco; and repealing existing Fire Code.

File No. 1079-58, Ordinance No.

Supervisor Tamaras, seconded by Supervisor Ertola, moved that Sections 8.08(1) and 8.09 of the proposed revised Fire Code be deleted and re-referred to Committee for further consideration.

Supervisor Moscone stated that he wished clarification of the point of whether or not the subject deletion would in any way constitute a determination of the merits of the controversy over the types of services permitted in automotive service stations. The Chair stated that it would not.

Supervisor Casey stated that he felt the subject sections should be left in the proposed code pending a decision on how they should be amended. He asked the City Attorney to advise as to what controls would exist if the subject motion carried. Deputy City Attorney T. J. Blanchard informed the Board members that Section 336 of the present Fire Code, covering the provisions contained in the subject sections of the proposed revised code, was not being enforced because of a Municipal Court decision which had declared it unconstitutional. He advised that it was within the Board's discretion to leave the provisions in the proposed revised code, or to delete them.

Motion carried by the following vote:

Ayes: Supervisors Ertola, Francois, McCarthy, Morrison, Moscone, Tamaras, Tinney—7.

No: Supervisor Casey—1.

Absent: Supervisors Blake, Boas, McMahon—3.

Consideration Continued.

The following recommendation of Planning and Development Committee was taken up:

(Supervisor Boas dissenting in Committee.)

Requesting that City Planning Commission declare policy of reviewing permit applications for buildings higher than 105 feet and 190 feet in Union Square Area.

File No. 146-64-1, Resolution No.

Supervisor Morrison, seconded by Supervisor Ertola, moved continuation of consideration for two weeks.

Supervisor Morrison explained that his reasons for asking continuance were to allow for the presence of the Committee Chairman, Supervisor Boas, at the time a vote on the subject measure was taken, and to allow for consideration at the same meeting of a proposed ordinance establishing height limit regulations in the Union Square area, which latter legislation had been tabled by the Committee.

Supervisor Ertola thereupon withdrew his second to the subject motion, stating that he was willing to second a motion for one week's postponement, which would allow for the presence of the Committee Chairman, but felt that the ordinance in question had been fully discussed in Committee.

Supervisors Moscone and Casey seconded the subject motion.

Explanation of Vote.

Supervisors Ertola and Francois explained that they opposed the subject motion for two weeks' delay because they felt the ordinance which Supervisor Morrison wished to bring before the Board had had sufficient hearing before being tabled by Committee.

Motion *carried* by the following vote:

Ayes: Supervisors Casey, McCarthy, Morrison, Moscone, Tinney—5.

Noes: Supervisors Ertola, Francois, Tamaras—3.

Absent: Supervisors Blake, Boas, McMahon—3.

SPECIAL ORDER—2:00 P. M.

Presentation of Progress Report by Mayor's Market Street Coordinating Committee and its Advisory Subcommittee, and the Bay Area Rapid Transit District, on the subject of planning and improvement of Market Street.

File No. 297-61.

Mr. James Browne, Community Relations Officer for the Bay Area Rapid Transit District, assisted by Mr. Winfield Salter, presented an illustrated description of the present status of plans for location of routes and subway stations in San Francisco. He indicated that the District encouraged the participation of civic leaders and private interests in securing the best possible design of station entrances. He outlined the criteria which must be observed in adopting changes in the District's plans, which may be proposed by the member communities. He stated that extension of mezzanines in the stations as an expense of construction of the rapid transit system, which had been suggested, could be justified only if the street must be opened for cut-and-cover type construction.

Mr. S. M. Tatarian, Chairman of the Market Street Coordinating Committee, reported on the activities of the Market Street Task

Force, which was organized to integrate into the District's plans the needs and desires of San Francisco as determined by the City Departments directly concerned with the project, as well as the wishes of affected utility companies and property ownership groups. He indicated it had been determined that an estimated sum of \$350,000 would be required to engage urban design architectural consultants and to expand the Task Force for development of a plan for Market Street from the Embarcadero to Van Ness Avenue. He stated that efforts to secure Federal funds for this purpose had not been successful, and a supplemental appropriation request for \$75,000 (the amount presently available for this purpose), had been submitted so that the services of the necessary consultants might be obtained at once. He indicated that it had become evident to the Task Force that every effort should be made to have the stations designed so as to admit the maximum amount of air and sunlight, and to this end a concentrated effort was being directed to solution of the problem of relocation of utilities.

Thereupon the Board members questioned Mr. Tatarian and Mr. Adrien Falk, President of the Board of Directors of the District, with particular emphasis on the subject of relocation of existing utilities under Market Street. It was ascertained that under the law the District was obligated to bear the cost of reestablishment of utilities in areas where they are disturbed by the District's activities, i.e., primarily in the stations themselves, but not in the subway areas between stations. In this connection, Mr. Falk stated that the District had an open-minded attitude as to the extent of its obligations, and was willing to cooperate in any way possible to achieve an acceptable solution to this major problem. He stated that in order to keep work on schedule the City's technical advisors should have answers for the District within three months as to the City's desires in this regard.

Supervisor McCarthy requested that Mr. Tatarian submit a recommendation from the Task Force on specific alternative methods of providing funds required for Market Street planning and reconstruction, if it is not possible for the Bay Area Rapid Transit District under legal restrictions to totally fund the required sums. He also asked for an idea of the time required to give answers to the District's critical questions relative to design criteria, as well as for a breakdown of the uses for the \$350,000 which was requested for study purposes, and the time within which these monies would be required.

There being no objection, the privilege of the floor was granted to Mr. Edward Keil, Chairman, Mission Renewal Commission, for the purpose of presenting comments on the Mission District's problems and plans in connection with the Rapid Transit Plan. Mr. Keil reported that his group, composed of businessmen, merchants and home owners in the Mission, was working on a self-financed plan for renewal and redevelopment of their District. He stated that they felt a study of design of the proposed rapid transit stations at 16th Street and at 24th Street, and their effect on property and on traffic flow in these areas, should be undertaken immediately, and that the sum of \$20,000 be provided by the City for this purpose.

Following Mr. Keil's presentation, the Board members directed questions to Mr. Tatarian, Mr. Falk, Mr. Keil and Mr. James McCarthy, Director of Planning, and at the conclusion thereof it was determined that the date of Monday, January 25, 1964, by which time the Technical Feasibility Study would be completed, be set for hearing of the next progress report by the Mayor's Market Street Coordinating Committee and its Advisory Subcommittee, and the representatives of the Bay Area Rapid Transit District.

Thereupon the Chair expressed the Board's thanks to the representatives of the District and the City for their presentations, and consideration of calendar items was taken up.

File No. 300-64

Taken Up Out of Order.

Adopted.

There being no objection, at the request of Supervisor Blake, the following recommendation of Joint Finance and Transportation Committee, appearing on the Calendar under New Business, was taken up out of order:

Approving with qualifications the terms and conditions of offer of City of San Francisco Ellis-O'Farrell Parking Corporation to acquire and transfer by gift to City and County of San Francisco title to Ellis-O'Farrell Garage.

File No. 438-63-2, Resolution No. 754-64.

Explanation of Vote.

Supervisor Boas stated that while he felt there was complete good faith on all sides in attempting to arrive at an equitable decision, and the financial arrangements were satisfactory, if one were in accord with the proposal, he was concerned about the purchase itself because the history of the garage has proved it cannot be operated successfully. He stated experience has shown that the garage is too costly to operate with attendants and it cannot be satisfactorily converted to a self-park operation.

Supervisor McCarthy stated that, despite the defects which were pointed out, in view of the value of the land involved and its potential for further appreciation, as well as the vital necessity for parking facilities at this location, he would support the resolution before the Board.

Adopted by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, Francois, McCarthy, McMahon, Morrison, Moscone, Tamaras, Tinney—10.

No: Supervisor Boas—1.

He repeated this statement under oath following Mr. Ogle's comment that he was not satisfied with the Supervisor's answer.

Mr. Russell L. Wolden, Assessor, and Mr. William Reed and Mr. Samuel Duca of the Assessor's Office, testified as to the valuation of the property and how the possessory interest was determined.

In response to questions of Board members as to the advisability of deferring decision in the matter of the subject applications until such time as a ruling had been obtained on appeals on similar tax payments, which are currently pending in Court, Chief Deputy City Attorney Thomas J. Blanchard stated it was his recommendation that the Board make its adjudication on the basis of the evidence presented. Mr. Ogle stated that it would not be satisfactory to the applicants to await determination of the pending appeals before decision on payment of taxes was made, or to pay now in anticipation of a refund in the event the ruling was favorable to them.

Mr. Philip L. Rezos, Director of Property, offered for the record a prepared statement indicating that in his opinion the possessory interest was of nominal or no value.

Mr. Stephan C. Leonoudakis, representing San Francisco Garage & Parking Association, was given an opportunity to make a presenta-

tion recommending denial of subject application, and Mr. Ogle was given the opportunity to make a closing statement.

There being no further requests to be heard on the subject application, the Chair declared that the matter was before the Board for action.

Supervisor Morrison, seconded by Supervisor Francois, moved that the subject application for reduction of assessment be denied.

Explanation of Vote.

Supervisor Morrison explained that he believed there could be no such thing as a possessory interest that had no value, and such an assumption was in fact a contradiction in terms. He stated further that he believed what had been done in the past was something in the nature of a tax abatement. He indicated that while this may be desirable in some instances for social and renewal objectives, in the subject case money was available for payment of taxes and therefore they should be paid.

Supervisor Blake stated that while he felt the objective of paying off bonds of the nonprofit corporations before maturity was commendable, he thought it was more beneficial for the City to collect the taxes now and thereby help to relieve the present burden on other taxpayers.

Motion carried by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, Francois, McCarthy, Morrison, Moscone—7.

Noes: Supervisors Boas, McMahon, Tamaras, Tinney—4.

Application Denied.

Application No.	Applicant	Block	Lot	Equalization Requested
2.	Uptown Parking Corp.	286	24	Possessory Interest (\$970,515 to Nil)
		(330 Sutter Street)		

Mr. Orville Wright stated that the Assessor was prepared to stipulate that the entire hearing with respect to Uptown Parking Garage would in all material respects be identical with the hearing on the foregoing application, and would submit valuation of Uptown Parking Corporation as a letter exhibit, without comment.

H. Kelly Ogle, Attorney, representing the applicant, stated that he would stipulate to the stipulation of the Assessor, with the requirement that his remarks and documentation submitted be included in the record. Mr. Philip L. Rezos, Director of Property, also agreed to the subject stipulation.

There being no further requests from anyone present to be heard on the subject application, the Chair declared that the matter was before the Board for action.

Supervisor Morrison, seconded by Supervisor Francois, moved that the subject application for reduction of assessment be denied.

Motion carried by the following vote:

Ayes: Supervisors Blake, Casey, Ertola, Francois, McCarthy, Morrison, Moscone—7.

Noes: Supervisors Boas, McMahon, Tamaras, Tinney—4.

Refused Adoption.

The following from Governmental Services Committee with recommendation "Do Not Pass" was taken up:

Declaring intention to order the vacation of Glenhaven and Blairwood Lanes, in Forest Knolls Subdivision.

File No. 131-63-1, Resolution No.

(Vacation of subject lanes would preclude construction of stairways therein, which were a condition of the approval of tentative subdivision maps of Forest Knolls Subdivisions Nos. 1 and 2.)

Supervisor Tamaras explained that the City Attorney had informed the Committee that in order to vacate a street area the Board must make a finding that such area serves no purpose and is not necessary. However, in the subject instance all City Departments concerned had testified that stairways in Glenhaven and Blairwood Lanes were necessary for present and prospective street purposes, for fire protection, access to bus lines, schools and areas of public use.

In response to questions by Board members, the City Engineer stated that the contractor would be required to build the subject stairways to City standard specifications. He indicated that if a more specialized type of construction were desired by residents of the area, an assessment district could be formed to provide funds for the additional costs involved, or additional money could be appropriated by the City for this purpose. It was also ascertained that the Art Commission could add certain requirements to the specifications for embellishments for esthetic purposes.

Supervisor Tamaras indicated it was the feeling of the Committee that whatever measures were possible should be taken to provide attractive stairways which would blend well into the surrounding area. He stated that the Committee recommended that the Department of Public Works do everything possible to ensure that a type of stairway be constructed that is as attractive, esthetic, and compatible with the surrounding area, as is possible, and to this end suggested that in conjunction with the Art Commission, the Director of Public Works invite the contractor and representatives of the home owners to a meeting for the purpose of reaching an agreement as to the type of stairway to be constructed and the embellishment thereof.

The Chair explained the parliamentary situation as follows: A "No" vote would support the recommendation of the Committee, and would provide for construction of the stairways.

Thereupon the roll was called and the subject resolution was refused adoption by the following vote:

Ayes: Supervisors Blake, McMahon—2.

Noes: Supervisors Boas, Casey, Ertola, Francois, McCarthy, Morrison, Moscone, Tamaras, Tinney—9.
